Subject No. 360 of the Representative Assembly Proceedings of 1912, regarding the introduction of the contract system of supplies to Government Officers on circuit.

"*Summary of discussion.*—The Amildars and Shekdars should be relieved of the duty of supplies to officers on circuit. After this subject was brought before the Assembly in 1907, the Government of Madras, on the representation of Hon'ble Mr. Kesava Pillay in the Madras Legislative Council, have modified the rules regarding supplies. Will the Government be gracious enough to enquire into this question and introduce the contract system.

Reply of Government.—*Noted.*"

2. Letter No. 4476, dated 17th September 1913, from the Revenue Commissioner in Mysore, stating that the modified rules of Madras are not very different from the practice obtaining in the State.

3. Replies received from the Revenue Commissioner and other Heads of Departments and Deputy Commissioners to this office Circular Nos. 1718-43, and 1752-55, dated the 27th and 28th August 1914, calling for their views in regard to the issue of rules for the guidance of touring officers in the matter of procuring supplies of provisions and other necessaries.

Order No. R. 11805-53—L. R. 623-12-41, dated 15th June 1916.

The existing orders of Government in the matter of requisitions by touring officers for supplies of provisions, etc., are contained in the late Chief Commissioner's Proceedings No. 3598—J. 143, dated 29th July 1875, which are printed as an accompaniment to this order. These rules have worked for about forty years and are sufficient for all requirements. The Government do not therefore consider that any modifications or amplifications are necessary.

2. In inviting the attention of the Heads of Departments and Deputy Commissioners of Districts to the orders referred to above, Government trust that the principle of giving sufficient notice for procuring supplies and of payment therefor in all cases will be strictly observed.

3. Government wish to impress on all officers concerned that the acceptance or offer of free supplies will be regarded with disfavour and attended with severe punishment. Any infringement of the foregoing directions on the part of any officer should be promptly brought to the notice of Government by the Head of the Department concerned and the Government look to the Heads of Departments to see that the rules are obeyed both to the letter as well as in spirit by all their officers while on tour.

ACCOMPANIMENT.

Proceedings of the Officiating Chief Commissioner of Mysore.

Letter No. 150-66, dated 2nd June 1875, from the Commissioner, Ashtagram Division.

ORDER THEREON No. 395—J. 143, DATED 29TH JULY 1875.

The Officiating Chief Commissioner observes that, while an absolute obligation rests on all taluk and village officials to assist officers and others travelling on the service of Government in procuring supplies, etc., it is necessary that this requirement should not be pushed so far as to impose on undue burden on those officials. It will be desirable that the limits of demand on one side, and compliance on the other, should be clearly prescribed and the Officiating Chief Commissioner has accordingly directed the publication of the subjoined Rules in the Local Gazette. A copy of the Rules in English will be supplied to every public bungalow and Kanarese copies will be affixed in a conspicuous place at all Taluk Cutcherries.

T. CLARKE,
Officiating Secretary.

Rules regarding the duties of Taluk and Village officials in complying with requisitions for supplies from officers travelling on public service.

Rule I. An officer of Government when travelling on duty is entitled to obtain such supplies as he is absolutely in need of, provided that he gives sufficient notice to the kotwal or shekdar, in places where there are such functionaries, and otherwise to the patels of villages, and provided also that money be advanced for the purchase of such articles.

Rule II. Such supplies as grass, gram and milk should be provided at once by the officials mentioned in Rule I on receipt of three hours' notice as well as on payment of advance. Other supplies such as, sheep, fowls, etc., will be provided also in towns where such commodities are readily obtainable, but not in villages, and officers are interdicted from nd others in procuring supplies of this description.

Government Order No. R 8186-7—L. R. 464-12-2, dated 30th June 1913, directing that the marginally noted Shanbhog Service Inam lands in the Madivala village, Kolar Taluk, be resumed for arrears of revenue due thereon, and disposed of for cultivation under the Darkhast Rules, the arrears being written off the accounts.

2. Letter No. 9493, dated 25th January 1916, from the Revenue Commissioner, recommending that as the persons, who were enjoying the Inam lands, have since paid up the whole of the arrears amounting to Rs. 441-14-9 except the interest of Rs. 100 due thereon, the lands may, as proposed by the Deputy Commissioner, be restored to them as Inam as before, the interest being excused on the ground of poverty of the parties and that the khate may be made out in the name of Venkatanarappa.

Order No. R. 11552-61—L. R. 357-15-2, dated 10th June 1916.

Under the circumstances, Government are pleased to cancel the order read above, and to direct that the lands be restored to the persons as Inam.

2. Government, however, regret to observe that lack of proper enquiry at the outset, has led to unnecessary correspondence. In future, before sending up recommendations to Government in such cases, the Deputy Commissioner should satisfy himself that all the persons interested in the Service Inam lands have been consulted and their views ascertained as to their being agreeable to pay up the arrears and retain the lands.

3. Under Section 68 of the Land Revenue Code, the Deputy Commissioner is competent to order the transfer of registry of the lands to the legal heir of the previous khatedar.

Village Improvement Allotment for 1916-17.

No. R. 12236-46—L. R. 15-15-207, DATED 22ND JUNE 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Correspondence ending with letter No. 15727, dated 26th May 1916, for the Revenue Commissioner in Mysore, submitting statements received from the Deputy Commissioners of Districts showing the extent to which the village improvement allotment for 1915-16 is likely to be utilized during that year and the allotment required for the year 1916-17.

Order No. R. 12236-46—L. R. 15-15-207, dated 22nd June 1916.

A consolidated statement showing the extent to which the village improvement allotment is likely to be utilized in the several districts during the year 1915-16 is appended.

2. Out of a sum of Rs. 1,30,000 placed at the disposal of the Deputy Commissioners for giving grants-in-aid of village improvement works (other than drinking water wells for which a separate fund has been made available) during the year 1915-16, a sum of Rs. 30,412 is reported to have been utilized up to the end of March 1916 and a sum of Rs. 65,134 is expected to be utilized for the purpose during the months of April, May and June 1916. The Government hope that this figure actually represents the value of work in hand and expected to be completed before the close of the year. It is observed that the amount spent in the Hassan and Kadur Districts is very poor. Special endeavours should be made by the local officers in these districts to explain to the people the advantages of the scheme and to see that the Village Committees take up as many works as possible under the scheme.

3. A sum of Rs. 2 lakhs will, as laid down in sub-paragraph 2 of paragraph 10 of Government Order No. R. 6058-6107—L. R. 430-13-1, dated 6th February 1914, be provided for grants-in-aid for village improvement works for the official year 1916-17 and will be distributed as shown below :—

			Rs.
(1) Transferred to the drinking water wells fund		...	50,000
(2) To be utilized for giving grants for Rural Libraries		...	10,000
(3) Allotments for the districts for giving grants for village improvement works other than drinking water wells :—

The balance of Rs. 33,500 will be kept as a reserve to be drawn upon in case of need.

No. R. 12236-46—L. R. 15-15-207, DATED 22ND JUNE 1916.

4. Government are pleased to extend the concession of sanctioning as grants-in-aid half the cost of village improvement works when the other half is contributed by the villagers either in cash or in the shape of labour, until the end of 1916-17.

REPORT OF THE HARIHAR SUB-TALUK CONFERENCE.

The seventh Taluk Conference in the District was held at Harihar under the presidency of Mr. C. S. Balasundaram Iyer, Deputy Commissioner, on the 26th and 27th March in a large and artistic pendal erected near the Sangameswara temple. This was the occasion of the Sangameswara Jatra when an annual Cattle Show is held in connection with it. There were present almost all the District Officers, Amildars of Taluks, members of District Board and District Economic Committee besides the leading members of the bar and important raiyats belonging not only to the sub taluk but also to the neighbouring taluks of the district and of the British taluks. Mr. D. G. Ramachandra Rao, Assistant Director of Agriculture and Mr. N. Narasimhiengar, Veterinary Superintendent were also present.

The President in opening the Conference thanked the organisers of the Conference and welcomed the members. He explained the object and usefulness of such Conferences. Similar Conferences had been held in other taluks and been largely attended. He hoped that these gatherings were of some benefit to the raiyats, etc., in that they have served as eye-openers as it were, and that those that attended them would turn the experience they gained therein into practical action and thereby benefit themselves and their neighbours. The present conference is intended to serve a similar purpose so far as the people of this sub-taluk are concerned who are afforded an opportunity to listen to papers relating to their condition read and discussed, so that they may thereby know their wants and try to supply them and otherwise improve themselves. The President said that as so many conferences had gone before this a certain amount of repetition was inevitable but as many of the people of this sub-taluk attended the conference for the first time the suggestions thrown out therein might, it was hoped, come to them with all freshness.

Surveying the educational backwardness of the State, the President said that only 5 per cent of the people know how to read and write and even less than 5 in 1,000 were educated in English. True that it is difficult for all to learn English and such a time however desirable does not loom even in the distant future. Everyone of us must put forth our best efforts to educate our people in the vernacular to enable them to acquaint themselves with new ideas and modern scientific knowledge. The wheel of progress is fast moving and it behoves us all to recognise this important fact and to keep pace with it. Things not dreamt of formerly have come to pass and our people must learn about such things. If we are not to fall lamentably behind in the race we should at least know something about such things, though we cannot go so far as to invent them or discover new facts concerning them. Works run by machinery have already been introduced into State and their scope will be largely extended within a few years. It thus becomes necessary that our young men should be trained to attend to them. In fact the problem of the improvement of the State is bound up with the improvement of its education. Hence it is that conferences like this are held in order to make people realise their backwardness as compared with the people of the other civilised countries and to create in them a healthy spirit of emulation. The President compared our country in its educational backwardness to a family of blind men with only one man with eyes among them and urged that we should eagerly promote education just as blind persons would eagerly seek any remedy which could restore their sight. He impressed on the audience the grave responsibility that rested upon their shoulders as the educated section of the population and called upon them to exert themselves and advise parents to send every boy and girl of the school-going age to school so that the present low percentage may be raised to at least 20 within the next few years. He further exhorted them to see that 1 in a 100 or at least 2 or 3 in a 1,000 of population reach a high standard of education.

He then dilated upon the urgent necessity of effecting improvements in the present methods of agriculture which is the mainstay of the country. If the country should develop its resources it must be through agriculture which supported so much as 80 per cent of the population including tradesmen whose trade depended on the produce of the land. He regretted that while other countries are deriving great benefit from agriculture we have not been taking as much from the land as it would readily yield if we improved in our methods of husbandry, etc. To do this it was primarily necessary that improved agricultural implements must be largely made use of; manure must be better preserved money crops such as sugarcane must be more extensively grown and that more effective methods of marketting the minor agricultural produce must be devised. He then referred to the scantiness and fitful condition of rainfall a circumstance beyond human control and exhorted the audience to consider seriously the proper use of such irrigational facilities as were available.

The Sub-Division Officer Mr. Sirsi Ananda Rao then delivered a lucid speech in which he brought home to the audience the comparative helplessness of the condition of the raiyat as compared with that of even other parts of India. He regretted the apathy of the people towards the laudable efforts of Government to improve our lot and dilated on the object and scope of the Economic Conference which has been designed among other things to set people thinking a condition precedent to any improvement in a community. He made an impassioned appeal to the audience not to lose this golden opportunity but to throw themselves heart and soul and to work with Government to achieve their noble object.

This was followed by the reports of the Deputy Amildar, the Secretary Taluk Progress Committee and the Inspector of Co-operative Societies about the Village Improvement Scheme, work of the Taluk Progress Committee and the progress of co-operation in the sub-taluk. It was evident from the report of Deputy Amildar that the Village Improvement Scheme has taken root and is making headway. There is a large scope for the spread of co-operative movement and it is hoped that before another has passed the sub-taluk will have a better account to render about this important movement in the taluk.

Several papers on Education, Agriculture and Industries were then read and discussions thereon were invited. The Agricultural Inspector who was also present exhibited several agricultural implements and explained their use.

No. R 12262-70—L. R. 15-15-209, dated 22nd June 1916.

A list of papers read is attached. Mr. Ananta Naik in his interesting paper noted with satisfaction the several ways in which the Government are trying to improve the condition of the people and how want of co-operation among them has been rendering the task very difficult. The paper on infantile mortality by the local Sub-Assistant Surgeon Mr. Aravamundum Pillay was very useful and deserves to be largely read by the people. Mr. Dattatreya Rao made a very good and practical speech upon female education which was much appreciated by all. Mr. R. T. Mahadeva Rao made some very interesting remarks about our lethargetic condition, advised all to give up their lazy habits and rise to the occasion. Several of the papers were well thought out and practical. The papers and discussion showed in unmistakable manner that the desire on the part of the several persons to improve their economic condition is firmly rooted in them and it may be safely predicted that if the work now begun to educate them be continued, much desirable improvement may be effected in the near future.

The Conference lasted for two days. One noteworthy feature of the meeting was the award of gold medals, as at Hosdurga Conference, to the Village Committees that had shown the keenest interest in the work of improving their villages. Three such medals were awarded to the Village Committees of Belludi, Kondaji and Yakkegundi. As each recipient of the honor was handed the medal by the Deputy Commissioner he was loudly cheered and much enthusiam prevailed. The Deputy Commissioner also kindly distributed prizes and certificates to the several winners in the Cattle Show in which there was a fine collection of cattle.

In bringing the Conference to a close the President briefly reviewed the several papers read and expressed his pleasure at the intelligent way the proceedings were conducted. He again impressed upon them the necessity for action to improve the educational, agricultural and industrial condition of the country. He took this opportunity and advised the owners of land on the banks of the Tungabhadra to take early steps to use the abundant facilities for irrigation which they enjoyed and which if advantageously made use for lift irrigation by installing oil engine, would greatly improve the agricultural condition of the sub-taluk and would bring in a large amount of wealth. Wherever it is not possible for single individuals to undertake such enterprise either co-operative or joint stock concerns should be started to achieve this end.

He referred to the importance of improving the cotton crop both in quantity and quality and called upon the leading men to select the best seed and raise better crops by making use of the improved implements in consultation with the Agricultural Department.

Thus with the use of improved machinery, better agricultural implements and the spread of education the three essentials for the advancement of any country, the leading agriculturists of the sub-taluk should improve their condition. If they do so they would be conferring a great blessing not only upon themselves but upon their neighbours and in fact on the country in general. He called upon all to co-operate with the Government to bring about such an economic regeneration of the State.

The President then thanked Deputy Amildar and his co-workers for organising the Conference and bringing it to a successful close.

With three cheers to His Highness the Maharaja and other members of the Royal family and the President of the Conference the function was brought to a happy close.

As part of the Conference a magic lantern and cinametagraph exhibition was held by Mr. K. V. Iyengar who had been kindly deputed by the Inspector-General of Education. The shows were largely attended.

The cattle show attracted a very fine collection of cattle and there were also a few horses and rams. The Cattle Show Committee spared no pains to make the function an unqualified success.

The Deputy Amildar and the Conference and Cattle Show Committees deserve the thanks of all for the way in which every function was brought to a successful close.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 12463, dated 18th March 1916, from the Revenue Commissioner in Mysore, submitting the Comptroller's review on the working of the Treasuries in the State, during the year 1914-15 together with his remarks thereon.

(Printed as accompaniment.)

Order No. R. 12247-56—L. R. 474-15-2, dated 22nd June 1916.

Recorded.

2. From the report of the Comptroller it appears that there are serious delays and other irregularities in many of the District Treasuries in the submission of (*a*) lists of payments and cash accounts, (*b*) vouchers and subsidiary statements, (*c*) annual returns and (*d*) replies to audit objections.

3. The Government have carefully considered the subject and are of opinion that the delays and irregularities may be greatly reduced by the present form of the inspection report of the District Treasury being amended so as to provide for questions and answers on the above subjects. Under Articles 719 and 725-7 of the District Treasury Manual, Deputy Commissioners are expected to make cash balance inspections once a month and detailed inspections twice a year, the Revenue Commissioner once a year and the Comptroller once in two years. If therefore these delays and irregularities are located at these inspections and steps taken to prevent them by devising suitable correctives then and there, substantial improvement can be effected in District Treasury administration.

4. The Revenue Commissioner and the Deputy Commissioners are also requested to embody in their half-yearly confidential reports on District Treasury Officers the more serious mistakes and irregularities in the working of the District Treasuries for which they are responsible.

5. The Comptroller is requested to take steps to have the form of Inspection Report suitably revised as pointed out in paragraph 3 above.

6. The explanation of the Treasury Officer, Mysore, for delay in the submission of vouchers should be submitted to Government at a very early date.

7. The Comptroller is requested to see that the annual report reaches Government earlier.

ACCOMPANIMENT

Letter No. 12463, dated 18th March 1916, from K Doraswami Iyer, Esq., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department, Bangalore.

I have the honor to forward herewith letter No. 4974—T A. D ii, dated 6th January 1916, together with its enclosures in original, from the Comptroller to Government, reporting on the working of the Treasuries in the State during the year 1914-15, and to state as follows :—

From the Statement D appended to the above letter it is observed that none of the Treasuries, except Kadur and Chitaldrug, submitted the list of payments and cash accounts promptly. It is gathered from the District Treasury Inspection Reports that the delay in the submission of the bi-monthly lists was due to an omission on the part of the Treasuries to post up the taluk ledgers and lists of payments day by day. The attention of the Treasury Officers concerned has been drawn to Articles 317 of the Civil Account Code and 318 of the Mysore Treasury Manual and they have been requested to adhere strictly to the instructions contained therein.

The Comptroller in para 2 of his letter states that none of the District Treasuries except those at Kadur and Chitaldrug submitted the vouchers and subsidiary statements along with the cash accounts and that the Mysore District Treasury did not furnish them for months together in spite of repeated calls. The Comptroller having brought this to my notice in another connection necessary instructions were, in this office memo No. 13673, dated 27th April 1915, issued to the Deputy Commissioner to arrange for the punctual submission of vouchers from time to time and the immediate transmission of overdue ones. The system of furnishing consolidated vouchers that appears to exist in some of the Treasuries may account for a small delay but a delay of months is not quite satisfactory. A list of overdue vouchers relating to the Mysore District will be forwarded to the Treasury Officer concerned and he will be asked to explain the cause of delay in each case.

Letter No. 4974—T. A. D. (ii) 704, dated Bangalore, the 3rd January 1916, from the Comptroller to the Government of His Highness the Maharaja of Mysore, to the Revenue Commissioner in Mysore.

I have the honor to forward herewith my review on the working of the Treasuries in the State for the year 1914-15 for submission to Government with your report thereon.

1. *Lists of Payments and Cash Accounts.*—From Statement A it will be seen that the districts of the State stand in the following order as regards punctuality in the submission of these returns

1. Chitaldrug.	5. Bangalore
2. Kadur	6. Tumkur
3. Kolar	7. Mysore, and
4. Shimoga	8. Hassan.

There has been on the whole no appreciable improvement in this matter. It is quite necessary that special attention of the several District Treasury Officers should be drawn to this point and every endeavour made to ensure the timely submission of these returns in future.

2. *Vouchers and Subsidiary Statements.*—It will be seen from the figures in column 4 of statements A and B that except the Chitaldrug and Kadur Districts, the number of schedules and vouchers that did not accompany the monthly cash accounts and list of payments has been heavy in the other districts as in the previous year and in spite of the instructions issued in Government Order No. R. 947-56—L. R. 437-12-2, dated 28th July 1913, and No. R. 10384-93—L. R. 500-14-2, dated 18th May 1915, there has been no improvement in any of the districts. As regards the number of vouchers that were not received with the lists of payments and for months together after they were due, Mysore stands worst. A special report to Government about the non-submission in time of these returns and vouchers, was made in this office letter No. 7101—T. A. D. (ii). 1043, dated 30th March 1915. Attention is also invited to the marginally noted communications received from Government on the subject. There has again been a long delay and some of the bills and vouchers from January last have not been received yet in spite of reminders issued therefor This state of things is far from being satisfactory and I am to request you to be so good as to issue stringent instructions for the submission of accounts, vouchers, etc., without further delay and also to ensure their punctual submission in future. A list of the vouchers yet due from the Mysore District is also appended to this report. As a Treasury Officer is bound to support every item of payment in his Treasury Accounts by a proper voucher, there would be nothing wrong in Government ordering that after waiting for a reasonable period, say one month, the Comptroller may transfer the amount of every entry in the accounts unsupported by a voucher to the personal debit of the District or Taluk Treasury Officer concerned To remedy the present intolerable state of many expenditure entries in the accounts without vouchers supporting them, I suggest that such discretionary power be given to the audit office.

1. No. R. 9174—L. R. 545-14-2, dated 22nd April 1915.
2. No. R. 4468—L. R. 545-14-4, dated 4th November 1915. (to the Revenue Commissioner in Mysore)

3. *Annual Returns—Statement D.*—Hassan, Chitaldrug and Kadur Districts submitted their returns on the due dates and the delay in the other districts varied from one to three months. These do not include the annual returns of Savings Banks Accounts, as they are as usual dealt with separately in the report on the working of the Savings Bank transactions submitted to Government.

4. *Statement E.*—As usual a statement showing the names of the several officers who were in charge of the several District Treasuries during the year is appended.

No R. 12247-56—L. R. 474-15-2, dated 22nd June 1916.

5. *Audit Objections.*—With a view to facilitate the prompt settlement of the objections raised by this office, the system of communicating all objections by means of separate slips for each objection was introduced during the year, but I regret to observe that the retrenchment slips issued by this office ordering the recovery of unauthorised payments or sums drawn in excess, are not receiving prompt attention and the amounts remain unrecovered for indefinitely long periods extending in some cases to several months.

6. *Items objected to.—Miscellaneous* (*Statements A, B., Columns 5 to 8.*—The defects and irregularities noticed during the examination of the Cash Accounts and Lists of Payments are detailed in Statement A. The following, however, deserve special notice.

(1) Contingent bill dated 7th January 1915, on account of certain supplies made in October and November 1914, by Messrs. Spencer & Co., Bangalore, for Rs. 570-10-3, received from the Military Secretary to His Highness, for preaudit was returned to that officer on 11th January 1915, duly audited for payment at the Bangalore District Treasury. In cashing the bill the Treasury wrongly paid on 19th January 1915 Rs. 670-10-3 resulting in an excess payment of Rs. 100—which was however subsequently recovered from the Firm after an interval of eleven days and credited to the Treasury on 30th January 1915. In reply to this office objection raised for the excess payment made at the Treasury, the Deputy Commissioner, Treasury Department, Bangalore, intimated that the accountant was severely reprimanded for his carelessness and that every bill is being subjected to careful scrutiny to avoid similar mistakes in future.

(2) The establishment pay bills of the newly formed Hardinge Circle at Mysore for the months of February and March 1915 at Rs. 30 per mensem were paid at the Mysore District Treasury in April 1915. The Treasury Officer who was requested to intimate how the bills were cashed at the Treasury without instructions from this office stated that the omission was due to oversight. On requisition of this office, the Superintendent, Government Gardens, Bangalore, in charge of the Establishment, has since obtained the required Government sanction. A similar instance of having paid the new establishment bills at the Mysore District Treasury without instructions from this office was noticed last year also (*vide* para 5 (1) of this office report for 1913-14 appended to Government Order No. R. 10384-93—L. R. 500-14-2, dated 18th May 1915.

(3) A bill for the feed and keep of rider-less horses during October 1914 was passed by this office for Rs. 30-4-2 but the District Treasury, Mysore, paid in May 1915, on the above bill Rs. 30-5-4, resulting in an excess payment of Re. 0-1-2 which was subsequently recovered and credited to the Treasury on 8th May 1915.

(4) Forest Cheque No. 53-399, dated 2nd September 1914, for Rs. 370 was issued for payment at the Manjarabad Taluk Treasury with a note for payment in cash of Rs. 358 and transfer credit of Rs. 12 to the Insurance Fund and Security Deposits as noted in the margin. But the Treasury wrongly paid Rs. 363 in cash and Rs. 7 by transfer credit to Insurance Fund and did not recover Rs. 5 on account of security deposit as noted by the Drawing Officer. The explanation of the Treasury Officer that the omission was due to misapprehension is not satisfactory.

,,	5	0	0 to Security Deposit Account.
Total ...	12	0	0

Conclusion.—From the above it will be clear that the working of the Treasuries on the whole has not been quite satisfactory and there is yet considerable room for improvement. I have again to bring to notice that unless, as suggested in my report for the last year, Government are pleased to order that the more important mistakes, delays, etc., in respect of each officer mentioned in this and subsequent reports, should be transcribed in the personal efficiency records of officers kept in the Secretariat, such irregularities and delays are bound to continue.

Correspondence ending with letter No. 3238, dated 23rd September 1915, from the Conservator of Forests in Mysore, submitting a revised programme of the building works required to be undertaken for the Forest Department during the next five years, classified under certain heads and arranged in the order of urgency and importance.

Order No. R. 11300-2—Ft. 87-14-6, dated 2nd June 1916.

The lists submitted by the Conservator include a building for the office of the Conservator of Forests, the cost of which is proposed to be met from State Funds, and some other buildings which have already been sanctioned and are in progress. The lists which have been revised omitting the above items are appended to this order.

2. Government direct that works to be undertaken each year be selected in the order of urgency as follows :—

(i) Sheds and lodges urgently required for forest subordinates on patrol duty.

(ii) Rest houses and forest bungalows required to facilitate inspection work.

(iii) Temporary buildings or sheds in localities where forest operations are being carried on.

3. All Rangers should also be provided with quarters and offices gradually.

4. An annual programme of works drawn up according to the above principles should be submitted to Government for information before the end of June every year.

5. This order does not prohibit the construction in any year of any building of the class not mentioned above when the same is urgently required.

6. Cases which require the sanction of Government under standing orders should continue to be submitted to Government heretofore.

Government Order No. R. 5790 803—Ft. 53-13-8, dated the 5th January 1915, approving of the scheme for the constitution of Village Forests, and issuing rules for their management under Section 32 of the Forest Regulation

Order No. R. 12457-67—Ft. 27-15-42, dated 28th June 1916.

Government are pleased to prescribe the appended form of notification for the constitution of Village Forests. The Deputy Commissioners to whom the required number of copies of the notification will be supplied by the Superintendent, Government Press, on indent, should forward through the Revenue Commissioner the notification in each case with the particulars duly filled in and with proposals approved of by him for the constitution of a Panchayet in each case. When the notification duly approved by Government is published in the Gazette, the forest may be deemed to have been constituted. Its management will then vest in the Panchayet to be constituted under the rules referred to above.

2. If after the constitution of the Village Forest, any claims to rights other than the rights of the village community or group of village communities for the benefit of which the forest is constituted, are put forward, orders of Government should be obtained in regard to the procedure to be adopted for the settlement of such claims.

No. R. 12555—Ft. 108-15-8, dated 30th June 1916.

Government regret to observe that there has not been much improvement in the maintenance of some of the registers and accounts since the date of the last inspection. It is very discreditable that some of the discrepancies noticed in the audit report of 1908 should have been allowed to remain unexplained till now. The Conservator is requested to see that all errors and omissions pointed out by him are attended to and set right within a reasonable time to be specified in each case. Delay in disposal of Comptroller's objections is unsatisfactory.

2. Two receipt books (Form No. 13 A) should not have been used simultaneously.

3. The suspicious entry in the cash book under the 17th November 1915 in regard to the disbursement of travelling allowance to one of the peons requires further enquiry. The result should be reported to Government.

4. Attention is again drawn to the points mentioned in Government Order dated 20th April 1916, reviewing the previous inspection report.

ACCOMPANIMENT.

INSPECTION REPORT OF THE DISTRICT FOREST OFFICE.

Kolar.

Date of inspection. — 14th March 1916.

Date of previous inspection. — 2nd June 1915.

Office building. — Since August last, the office is located in a new building constructed for the purpose.

1. *Register of State Forests.*

(*a*) Maintained. The notification relating to the Konaguntlu Block and the B and C Registers of the Gokunte-Golhalli Forest, referred to in the previous inspection report, have since been filed.

(*b*) Since the date of last inspection, Yenmegudda Block has been notified as a State Forest.

2. *Maps of State Forests.*

Forest survey maps of the Ittikaldurga Block II and the Nandi Forest have been supplied since the date of last inspection. Maps are still due for the following forests: —

(*a*) Narasimhadevarabetta Blocks, II, III, IV and V. *Surveyed.*
(*b*) Sambar-guda kaval.
(*c*) Gadari betta.
(*d*) Ittikaldurga Blocks, I, III and IV *Surveyed.*
(*e*) Yenmegudda.
(*f*) Konaguntlu
(*g*) Gokunte-Golhalli.

The date of supply of the Valsebetta Forest map to the Range Officer, Chikballapur, should be reported.

Control Books.

3. *Register of yield and outturn and record of works of improvement.*

As they are, these Registers serve no useful purpose, as observed in the previous report, and it is to be regretted that no attempt has been made to rewrite them with full details. Even the entries relating to 1914-15 have not been posted in the Registers.

4. *Forest journals.* — Not maintained.

5. *Plantation journal.*

The journal maintained for the ten plantations in the Malur Range has not been posted up-to-date. The remaining plantations, fourteen in number, have no journals of their own. It is trusted that the District Forest Officer will devote his attention to this important but unfortunately neglected item of work and write up the control books and journals by September next.

6. *Register of receipts and issues of timber and other produce. Form No. 6.*

Maintained, and posted up to the end of January 1916. Sandalwood collected and sent to the Koti has been shown in April 1915 in the Return. This is quite out of place here, as the collection, transports, etc., of sandalwood are controlled by means of forms and returns, specially prescribed for the purpose.

Sandal billets fifteen in number still continue to be shown in Form No. 6 against the District Forest Office. The District Forest Officer will at once send the billets in question to any of the Taluk Treasuries for retail sale

or return them to the Bangalore Koti, if necessary. The discrepancies pointed out in the audit report of 1908, chiefly relating to the differences noticed between the District and Range Returns remain yet to be explained fully.

7. *Register of sales of timber and other produce cut and collected by Government Agency, Form No. 7.*

Maintained and posted up to the end of January 1916.

In December 1915, nineteen lots of green fuel of the Narasimhadeverabetta Block V, shown as disposed of by sale in Form No. 6 have not been accounted for in Form No. 7, while twelve cart-loads of firewood belonging to the Talkunte Forest Reserve, although sold and brought on to Form No. 7 is shown as in hand in Form No. 6. These mistakes should be set right in the next month's account. The remarks relating to the audit objections of 1908 in para 6 *supra*, apply to this return also.

8. *Register of accounts of timber and other produce cut and collected by purchasers and consumers, Form No. 9.*

Maintained and posted up to the end of January 1916. All the "F" returns available in the Office were checked with the returns of the Range Officers and found to agree. The revenue realised in December 1915 by the vendors in the Srinivaspur Range has not been brought to the Range Cash Book and other returns during the month. It finds a place there in the next month and this is a serious irregularity; that the District Forest Officer has not raised any objection on the point and drawn the attention of the Range Officer shows that no right use is being made of the "F" forms received from the Range Officers. The District Forest Officer will please call upon the Range Officer to explain clearly the circumstance under which the Government revenue actually realised was kept out of accounts.

The remarks in connection with the audit objections referred to in paras 6 and 7 apply to this Register as well.

9 *Register of outstandings on account of revenue due to the department, Form No 10.*

Maintained and posted up to the end of January 1916. The difference between the "demand" and the "collection" in each month has been correctly brought on to Form No. 10.

Particulars of Revenue outstandings at the end of January 1916, are detailed below:—

	Rs.	a.	p.
(*a*) Amildars of Taluks on account of plague shed materials ...	57	8	2
(*b*) Lease of lac crop	167	2	11
(*c*) Lease of other minor forest produce ...	1,544	2	0
(*d*) Lease of Tangadi	42,655	5	0
(*e*) Other items ...	783	10	1
Total ...	45,207	12	2

Of this sum, Rs. 26,972-11-6 fall due next year, leaving a balance of Rs. 18,235-0-8 to be recovered by the end of the current official year. Bills for the supply of plague shed materials are not being promptly sent to the

No. R. 12555—FT. 108-15-8, DATED 30TH JUNE 1916

Officers concerned for "acceptance" The District Forest Officer will please take action to recover item No. (*a*) before the end of June next.

10. Register of free grants. Form No 11. — Maintained. No transactions since September 1914

11. Register of produce removed by right holders. — Not maintained A register with "nil" entries should, in future, be maintained.—Even in case, there should no transaction of the kind.

12. Receipt book, Form No. 13a. — Maintained. Two books are now in use. The necessity for using a fresh book when the one in use previously contained good many blank forms, requires to be explained.

13. Registers of stores, tools, etc. — Maintained both in the Codal Form No. 14 and in the form prescribed for recording daily transactions. As noticed in the previous inspection report, the two Registers do not tally with each other The District Forest Officer will call out the required information from the office records and "From" registers and rewrite the return from 1904-05. The Conservator will be glad to furnish from his office, any information that the District Forest Officer may require in this connection. This important piece of work should be taken up at once and completed before the District Forest Officer submits his next "Tools Return."

14. Date of last complete stock taking. —
(1) Srinivaspur Range—31st December 1915
(2) Bagepalli Range—15th February 1916 (but report has not yet been submitted to the Conservator).
(3) Malur Range—9th June 1915.
(4) Chikballapur Range—14th June 1915.

14. a. Uniform register. — Maintained. One pair of Guard's Trousers is missing, who is responsible for the loss?

15. Record of sanctioned works. — Maintained. Out of the budget grant under V(*a*) roads and bridges V(*b*) "Buildings" and V(*c*) "other works", only very small amount has so far been expended. This is far from satisfactory.

16. Cash book. — Maintained and posted up-to-date. The report on the discrepancies and irregularities pointed out in the audit report of 1908 is still due from the District Forest Officer. The District Forest Officer will please answer all the audit objections of 1908 fully and satisfactorily by May next. The delay so far occurred is not creditable to all concerned.

Cash balance 39-14-6, checked and found correct.

17. Entries compared and checked with the subsidiary books. — Compared and checked in detail since the date of last inspection.

18. Last day to which the headquarters entries have been made. — 11th March 1916.

19. Latest date to which the Subordinates' accounts have been received and written up. — January 1916.

20. Register of license books. — B and C Registers have been maintained correctly and posted up-to-date—Checked the stock of license books in hand and found

correct. The number of used-up license books left with the Range Officers is still large and should be reduced. In future, the "tickets" for which a separate account is now maintained should also be accounted for in the B and C register.

21. Register of permit books and other registers. Maintained. There is only one entry in the register since the date of last inspection.

22. Register of travelling allowance bills. Maintained. The submission of the pending bills should be expedited.

List of pending bills.—District Forest Officer..... ...Nil.

Office Establishment, January and February 1916.

Range Officer, Srinivaspur, from October 1915 onwards.

Range office establishment.
Malur, October 1915 onwards.
Srinivaspur, November 1915 onwards.
Bagepalli, November 1915.
Chikballapur, January 1916.

23. Establishment pay bills. Maintained and posted up to the end of December 1915.

24. Usual date of payment of salaries. First week of the month, in the case of the head quarter staff.

25. Cheque Books. These are kept in the personal custody of the District Forest Officer and written up by himself.

26. Account current, Form No. 18. Written up-to-date. (11th March 1916.)

27. Register of cheques drawn, Form No. 19. Maintained and posted up-to-date compared with Form No. 18 and the District Forest Officer's cash book and found to agree.

28. Names of Treasuries on which the Drawing account is opened.

1. District Treasury, Kolar.
2. Taluk Treasury, Malur.
3. Do Srinivaspur.
4. Do Chikballapur.
5. Do Bagepalli.

29. Last quarter to which Form No. 18 has been balanced. 2nd quarter ending 31st December 1915.

The amount of supplemental credit granted for the fourth quarter ending 30th June 1915, has not been shown in Form No. 18, with the result that as the entries now stand, the total amount of cheques drawn during the quarter exceeds the L. C. amount noted by Rs. 1,409-3-0. The District Forest Officer will rectify this omission at once.

Separate account should be opened in connection with each Treasury as required by Article 152 of the Forest Department Code, at least from April next.

30. Contractors' and disbursers' ledger, Form No. 24. Maintained and posted up to date. Checked with the cash book and found to agree.

January 1916. One pie being the disallowed amount in the account of June 1915,

has been recovered from the Range Officer, Srinivaspur, and added on to his cash balance. The procedure is faulty. It should be remitted to the Treasury, under R IV (*b*) "Refunds," *vide* Article 122 (11) of the Forest Code.

2. December 1915. A sum of pies four pertaining to the accounts for October 1915, and recovered from the Range Officer, Srinivaspur, has been treated in the District Forest Officer's cash book as Revenue under IV (*b*). This is wrong. It should be treated as "CASH RECOVERY OF SERVICE PAYMENT," and dealt with as laid down in Article 188 (1) of the Forest Departmental Code.

3. October 1915. Srinivaspur Range officer's account.

A sum of Rs. 15-1-0 remitted by money order by the Range Officer, Bagepalli, to the Range Officer, Srinivaspur, being the travelling allowance due to Forester, Shama Rao, had been credited in the latter's account and charged off on the Credit side in November 1915 to B II C. As this amount has been debited to B II C in the Bagepalli Range Officer's account and passed in both cases by the District Forest Officer, the expenditure incurred under budget Head B II C should be reduced B II C should be reduced by Rs. 15-1-0. The District Forest Officer has made a mess of the transaction relating to the advance of one month's pay granted to Forester Shama Rao in the Bagepalli Range. His attention is invited to the Comptroller's Circular orders on the subject, which if the District Forest Officer had adhered to, the confusion now caused in the accounts would have been avoided.

31. Monthly Abstract Ledger Form No. 25.

Maintained and posted up to the end of January 1916. Checked with Form No. 24 and found to agree.

The balance outstanding at the end of January 1916 is detailed below:—

		Rs.	a.	p.
1.	Mr. M. Shankarnarayanappa, Range Officer, Srinivaspur ...	369	14	4
2.	G. Siddayya, Range Officer, Malur ...	366	10	11
3.	Syed Salar, Range Officer, Chikballapur ...	634	3	11
4.	Mir Dastagir, Range Officer, Bagepalli ...	247	12	10
5.	Amildar, Kolar Taluk.	1	8	0
	Total ...	1,620	2	0

32. Schedule of remittances.

Checked in detail with the Cash Book and the District Treasury Returns in original and found to tally.

33. Objection statements.

Copies of objection statements received have been maintained. The following objection statements are pending disposal with the District Forest Officer:—

(*a*) Comptroller's—December 1915 (not as yet entered in the register) June 1915.

No. R. 12555—Ft. 108-15-8, dated 30th June 1916.

(b) Conservator's—June 1914 (further objections) January June 1915, 1915, received on 20th February 1916) December 1914.

34. Register showing recoveries of disallowances and fines. — Maintained, but not posted up-to-date. The District Forest Officer will see that this important Register is brought up-to-date, within a week.

35. Keeping of documents. — Still kept in bundles. The District Forest Officer will introduce the "Case" and "File" system from July next.

36. Copies of registers in Form No. A. and B. for artificial propagation of Sandal. — No progress has been made in maintaining and posting up these registers, since the date of last inspection.

37. Register of books and maps. — Maintained.

38. Register in Form Nos. 32 and 33 for Receipts and issues of correspondence. — Written up.

39. Destruction of useless documents. — No progress since the last inspection. The District Forest Officer's attention is invited to the Government Order on the subject.

40. Neatness in keeping office. — Fair.

41. Punctuality in correspondence. — Fair.

42. Custody of stationery. — With the 2nd Clerk. The prescribed accounts have not been posted up-to-date.

43. Forest Departmental Code. — Kept corrected up-to-date.

44. Forest Rules and Regulations. — Corrected up-to-date.

45. Register of forest offences. — Maintained but not neatly. (The maintenance of this important register is entrusted to a junior clerk whose knowledge of English is very limited.) It should, in future, be written up either by the Accountant or the 1st Clerk.

The particulars of cases registered and disposed of in 1914-15 and up-to-date from July 1915 are given below:—

	Number of cases registered	Amount	Amount recovered	Cases prosecuted	Balance amount
		Rs. a. p.	Rs. a. p.		Rs. a. p.
1914-15. ...	170	1,608 1 0	Cases 135 801 2 0	6	Cases 29 101 15 0
1915-16. ...	116	384 11 0	Cases 29 169 1 0	...	Cases 86 384 11 0

Of the 86 cases of the current year and 29 of the year previous, 12 cases pertain to February 1916. The compensation is long over due in other cases and Government Orders in this behalf are not being strictly carried out.

Treasury chellan should also be noted in column 11 in future.

47. Lease register. — Maintained. The sales recently effected in respect of minor forest produce and grass should also be noted in this register, and the recoveries on account thereof carefully watched.

No. R. 12555—Ft. 108-15-8, dated 30th June 1916.

48. *Circular Files.*	Maintained.
49. *Acquittance Roll.*	Maintained. Checked in detail with the District Forest Officer's Cash Book. (Under date 17th November 1915, an entry relating to the disbursement of travelling allowance to office peon Muniswamy is recovered a corresponding entry being also found in the Acquittance roll. From the travelling allowance register, it is evident that on this date, the peon in question was in camp with the District Forest Officer. The date of payment bears signs of erasure both in the cash book and the acquittance roll. It looks as if the date 27th is altered into 17th. The District Forest Officer will please enquire into the matter and report within a week whether peon Muniswamy accompanied him to camp in November 1915, as could be made out from the travelling allowance bill entries. and if so, how the payment under reference was made at headquarters and the payee's thumb impression obtained on the 17th.)
50. *Service Registers.*	Only 17 Service Registers are with the District Forest Officer. Registers have not been opened in favour of the following:— District Forest Office Peon Rama. Do Muniswamy. Deputy Ranger, G. Siddayya—to be opened afresh since his Service Register was lost by Mr. P. S. Govinda Rao. Immediate steps should be taken to open the Service Registers in question.
51. *Service Regulations.*	Corrected up-to-date.
52. *Gazette Files.*	Not bound up-to-date.
53. *Diary Files.*	Not bound up-to-date.
54. *Register of Mature Sandal Trees removed from occupied lands.*	A register is opened but it still contains no entries. The District Forest Officer will get the required information from the Range Officers and post up the register, without further delay. intimating the fact thereof to the Conservator.
55. *Efficiency.*	Not up to the mark.

Government Proceedings No. Fl. 415-55—R. F. 2-1902, dated 12th August 1903, directing that Heads of Departments and other Officers should, in future, act only on the authority of grants as finally sanctioned and embodied in the State Budget.

Order No. Fl. 6549-98—G. F. 217-15-1, dated 30th June 1916.

Under the present arrangements the budget is finally sanctioned and issued after discussion in the Legislative Council. This takes place a few weeks after the beginning of the year. Some Heads of Departments are under the impression that under the order read in the preamble they are precluded from taking any action in respect of the grants provided in their budget until the final issue of the budget. With the object of removing this impression, Government are pleased to explain that the departmental budget estimates as provisionally accepted by Government and communicated to the Heads of the respective Departments before the beginning of the financial year may be acted upon by the officers concerned. Immediately on receipt of the provisionally sanctioned budget all preliminary action should be taken and sanction obtained so that the full grant provided for in the budget may be judiciously worked out. Of course, until the budget is finally sanctioned, Government should not be committed to any expenditure in respect of special grants.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Fl. 6352-401— S. & A. 147-15-1, dated 17th June 1916.

The printed form of travelling allowance bills of Gazetted Officers in the Civil Department does not provide for the entry therein of the hours at which journeys begin or end. As this information is sometimes required for audit purposes, unnecessary correspondence is at present caused by the audit office returning the bills for the information being furnished. The corresponding form in British India and the forms in use here for the office establishment and for Gazetted Officers in the Public Works Department provide for the insertion of the hours at which journeys begin and end. The Government are accordingly pleased to direct that in all cases the hours at which journeys begin or end should be entered in the travelling allowance bill and that the headings in the travelling allowance bill forms of Gazetted Officers in the Civil Department be suitably modified so as to require such information being furnished.

Dated Bangalore, the 13th June 1916.

No. J. 4847-58
LEGIS. 47-15-2

OFFICE MEMORANDUM.

The following revised instructions regarding the preparation in the Secretariats of answers to interpellations by non-official members of the Legislative Council under the Rules published under Notification No. J. 2291—Legis. 20-13-1, dated the 12th February 1914, are issued for information and guidance :—

(1) All questions received from non-official members of the Legislative Council will, in the first instance, be received by the Secretary to the Legislative Council.

(2) One copy of the questions will be sent to each Member of His Highness' Council as soon as they are received.

(3) As soon as the period prescribed by the rules for the receipt of such questions is over, the Secretary to the Legislative Council will forward the questions received to the Secretary to Government, Legislative Department, who will select twenty questions out of the total number received and send them up for orders of the Dewan through the Member in charge of Legislation.

(4) The questions will, as they are received, be forwarded to the Branches of the General and Revenue or other Secretariat, concerned, for framing replies to be given at the meeting of Legislative Council.

(5) The Administrative Branch of the Secretariat concerned will deal with the matter as "Immediate" and submit the question with the necessary references to the Secretary in charge of the Department concerned for orders in regard to the form and substance of the reply to be given. The Secretaries will draft the replies after consulting, if necessary, the Heads of Departments and Deputy Commissioners.

(6) In case information regarding any question is not readily available and cannot be obtained before the date fixed for the meeting, the Administrative Branch of the Secretariat concerned will decide whether it is necessary to call for a report from the Head of the Department to which the question relates. The fact whether a report is called for or not should be mentioned.

(7) Draft replies to the questions selected will be sent by the Branches or Secretariats concerned, to the Secretary to Government, Legislative Department, who will submit the draft replies to the Members of Council and the Dewan.

(8) Care should be taken to see that the proposed replies are submitted to the Dewan as early as possible. Ordinarily at least three days' time is necessary.

(9) After orders of the Dewan are obtained regarding the replies and the names of members who are to announce them in the Council, the questions should be sent to the Secretary to the Legislative Council for further action, not less than two days before the day fixed for the meeting of the Council.

Letter No. 6835—806, dated 17—20th June 1916, from Diwan Bahadur, C. Srikantesvara Aiyar, B.A., B.L., Inspector-General of Police in Mysore, to D. M. Narasinga Rao, Esq., B.A., B.L., Secretary to the Government of His Highness the Maharaja of Mysore, General Department.

I have the honor to submit the following Report on the working of the Coffee Stealing Prevention Act for the season ending 31st March 1916.

2. During the season under review no cases were reported under the special act either in the Hassan or Kadur District, which the District Magistrate of Kadur attributes to the usual precautionary measures of opening Police Out-posts at the junctions of all important roads in the coffee-growing centres and to the vigilant supervision exercised over the Labbe and Mopla merchants, who had opened temporary shops in the neighbourhood.

3. The subjoined statement shows the details of coffee thefts dealt with under the Indian Penal Code:—

READ—

Paragraph 1 of Government Proceedings No 8368-77—L. B. 303-07-1, dated 22nd February 1908, sanctioning the supply of a limited number of Amrut Mahal bulls at concession rates to District Boards and to private individuals on the special recommendations of the Deputy Commissioners

2. The following communications from the Deputy Commissioners of Districts and Presidents of District Boards on the question of the need for increasing the number of Amrut Mahal bulls to be sold at concession rates as above.

(1) No. 156, dated 23rd September 1915, from the President, District Board, Chitaldrug.

(2) No. 858, dated 4th October 1915, from the President, District Board, Kolar.

(3) No. 135, dated 5th October 1915, from the President, District Board, Hassan.

(4) No. 184, dated 6th October 1915, from the President, District Board, Tumkur.

(5) No. 341, dated 17th November 1915, from the President, District Board, Mysore.

(6) No. 267, dated 19th November 1915, from the President, District Board, Kadur.

(7) No. 117, dated 17th January 1916, from the President, District Board, Shimoga.

(8) No 736, dated 13th May 1916, from the President, District Board, Bangalore.

Order No. 9020-9—L. B. 67-15-14, dated 13th June 1916.

It is observed that opinion is divided as to the need for increasing the number of Amrut Mahal bulls to be sold at concession rates to District Boards and private individuals and there seems no necessity for a general order on the subject.

2. In cases however where Deputy Commissioners are satisfied that there is real need for a larger number, Government will endeavour to arrange for the supply of the same at concession rates with due regard to the interests of the Amrut Mahal Department.

Government Order No. G. 7923-5—Mily. 21-14-577, dated the 16th December 1915, sanctioning certain rules for the grant of special rates of wound, injury and family pension to combatants and followers and families of the Mysore Imperial Service Lancers and Transport Corps.

2. Letter No. 7662, dated the 8th February 1916, from the Chief Commandant, Mysore State Troops, suggesting certain additions and alterations to the rules sanctioned in the order read above.

Order No. G. 16492-4—Mily. 21-14-614, dated 5th June 1916.

Agreeing with the Chief Commandant, Government are pleased to order as follows:—

(*a*) To remove all ambiguity, Note 4 to Rule 9 will be revised by omitting the words "but his total pension should not be higher than what is admissible for the combined injury."

(*b*) As in British India, the marginally noted provision will be adopted as Note 1 (*a*) to Rule 9.

"A pension for a wound or injury may be held with any other pay and allowances to which an officer may be entitled, and may be granted to, and may continue to be held by, any officer after leaving the service."

RULES FOR THE GRANT OF GOOD SERVICE ALLOWANCE IN THE KUNIGAL STUD FARM AND HESSERGHATTA GRASS FARM.

1. Good service allowance should be given only to men on the permanent and temporary establishments of the farms in recognition of some good service done.

2. The men in receipt of the allowance should have put in at least one year's service.

3. No allowance should be granted to men whose pay exceeds Rs. 20.

4. No person should get an allowance exceeding Rs. 3 per mensem.

5. The selection of candidates for the grant of this allowance will be made once in six months, *i.e.*, in December and June every year, or in other words the liste will be revised every half-year.

6. The approval of the Chief Commandant should be obtained before grants are made to the candidates selected by the Superintendent, Kunigal Stud Farm, in the case of those of the stud farm and by the Grass Farm Assistants in the case of those of the Hesserghatta Farm.

7. The allowance granted should be drawn monthly on pay bills.

8. The grant of good service allowance is liable to be stopped at any time in the case of the men of the Kunigal Stud Farm by the Superintendent thereof, and in the case of those of the Hesserghatta Farm, by the Farm Assistants, for any irregularity, insubordination, bad conduct, or unsatisfactory work.

9. The good service allowance being of the nature of a local allowance will not count for pension.

Petition dated 26th November 1915, from the residents of Hale Kasayi road, Chikpete Chowk, Bangalore City, praying that the shops for the manufacture and sale of explosives in their locality may be ordered to be removed to a less crowded locality.

2. Letter No. 227, dated 26th February 1916, from the President, Municipal Council, Bangalore City, stating that fireworks in various stages of manufacture are stored in small shops in Hale Kasayi road, Bangalore City, and are a menace to the safety of the neighbourhood and requesting that instructions may be issued to the Police Department, that the opinion of the President, Municipal Council, Bangalore City, may be obtained before disposing of applications for license for manufacturing or storing firework compositions in the Municipal limits.

3. Correspondence ending with letter No. 3476, dated 4th May 1916, from the Director, Department of Mines and Geology, forwarding a note by the Inspector of Explosives on the subject and also furnishing his own opinion in the matter.

Order No. G. 16952-4—Geol. 61-15-4, dated 20th June 1916.

It is stated by the Inspector of Explosives that in the locality referred to no licenses have been issued for the manufacture of fireworks or fireworks composition, but that there are 5 licenses for the possession and sale of manufactured fireworks. These licenses are granted by the District Magistrate and are subject to the conditions specified therein and so long as these conditions are fulfilled there is no reason why the licenses should be refused or cancelled. The conditions have been drawn up with due regard to safety based upon experience. But if the storage of explosives in any particular instance is considered undesirable the President may address the District Magistrate on the subject who as the licensing officer can refuse a license if satisfied as to the soundness of any objection.

Government are not prepared to modify the existing procedure based upon statutory regulations and rules.

Official Memorandum No. 5482—Edn. 90-15-4, dated 30th March 1916, publishing a provisional scheme for the proposed University of Mysore and inviting suggestions from the public.

2. Government Order No. 5493-8—Edn. 90-15-5, dated 1st April 1916, appointing a Committee with the designation "Mysore University Committee."

3. Letter No. 267, dated 31st May 1916, from the Secretary, Mysore University Committee submitting the final report of the Committee.

4. Letter No. 294, dated 6th June 1916, from the same officer submitting extracts from the draft ordinances and lists of text books.

Order No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

The Government of His Highness the Maharaja of Mysore having resolved upon starting the Mysore University from the 1st July 1916, a provisional draft scheme was published in March last and suggestions thereon were invited from the public. A Committee was also appointed to consider and report upon the opinions received and to suggest all measures necessary to bring the University into existence.

2. The representations and criticisms on the draft scheme have been very carefully considered by the Committee and they have proposed a few changes in the arrangements outlined in the provisional scheme involving a revision of the draft Bill and Ordinances.

Government are pleased to approve generally of the recommendations of the University Committee.

3. Full information regarding the courses of study for each class, the conditions of admission and other particulars is contained in the extracts from the draft ordinances published as an appendix to this order.

4. The most important changes sanctioned by Government are as under:—

(*a*) The groups of subjects for the Entrance course will be re-arranged as follows:—

A. Compulsory.

(1) English, and

(2) A second language. (Kannada, Telugu, Tamil, Sanskrit, Hindustani, Persian or French.)

When a student takes up Sanskrit or Persian as one of his optional subjects, he shall be required to select for his second language a language other than Sanskrit or Persian.

B. Optional.

One of the following groups of subjects:—

(1) Physics, Chemistry and Mathematics or Natural Science.

(2) History, Logic and Sanskrit or Persian or Elementary Economics.

(*b*) The High School attached to the Maharaja's College, Mysore, will be separated from the College, and that institution and the Government High Schools at Bangalore, Tumkur and Shimoga and the Maharani's College, Mysore, will be recognised High Schools authorised to maintain University Entrance classes.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

The optional subjects taught in the aforesaid recognised High Schools will for the present be as follows :—

(1) Government High School, Bangalore	All the subjects
(2) Maharaja's High School, Mysore .. .	All the subjects except Natural Science
(3) Government High Schools at Tumkur and Shimoga and the Maharani's College, Mysore .	History, Logic, Elementary Economics and Sanskrit

Pupils of the Maharani's College, who wish to take up Science as an optional subject, will be allowed to attend the classes in the Maharaja's High School in these subjects. It is intended to equip all the abovenamed institutions for teaching Science subjects from the year 1917-18.

The required additional staff will be provided immediately in the Collegiate High Schools, such staff being primarily employed only in the work of the Entrance class

(c) Students eligible for admission to the University Entrance class are—

(i) pupils who are declared to be fit for the College course in the Secondary School-Leaving Certificate Examination,

(ii) those who have passed the Matriculation Examination of any University, and

(iii) those who have failed to obtain promotion from the Junior Intermediate class.

5. During the year 1916-17, a class will be maintained in the Central College for students wishing to take up the Junior Intermediate Course of the Madras University with the optional subjects (i and ii) with the intention of proceeding to the Medical and Engineering Colleges after passing the Intermediate Examination. Students may at their option join this class instead of the University Entrance class in the High School.

6. The first year University class for the B.A. Degree of the Mysore University will not be opened in the year 1916-17 and the Senior Intermediate class of the Madras University will be continued in both the Colleges for another year.

The second year University class for the B. A. Degree of the Mysore University will be opened in both the Colleges in Mysore and Bangalore, and those who have passed the Intermediate Examination of the Madras University and wish to study for the B. A. Degree of the Mysore University will be eligible for admission.

7. The Senior B. A. class will be retained in both the Colleges during the year 1916-17 and the Honours classes of the Madras University will also be continued till those who have already taken these courses complete them.

8. For the present, no provision will be made for degrees in Law, Engineering or Medicine in the Mysore University. Arrangements, however, are being made to secure the recognition of the Mysore University degrees and examinations to enable Mysore University students to gain admission to these faculties elsewhere.

9. The B. A. Examination of the Mysore University will be held in the following four sub-divisions :—

(1) English, (2) Second language and (3) and (4) Optional groups of subjects.

No candidate will be allowed to apply for examination in a single sub-division, but if he succeeds in obtaining not less than 60 per cent of the marks in any sub-division he may be exempted from being again examined in that sub-division for a period of two years from the date of passing in that sub-division.

10. The questions of establishing a B. T. course and of allowing students who have passed the B. A. Examination of the Madras University, the option of taking the M. A. course of the Mysore University will be referred to the Council of the University for decision in due course.

11. The Bill to establish and incorporate a University in Mysore will be introduced in the Legislative Council and passed into Law at an early date.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

12. The University Committee will cease to exist from the day the University Council is formed.

13. Government desire to record their appreciation of the valuable services rendered by the President and members of the University Committee in working out the further details of the scheme and for the many practical improvements suggested by them.

(ii) Zoology, Geology, and Botany.

(*b*) in the second and third years,

any two of the subjects studied in the first year.

OR,

B. *Two* of the following subjects: -

(*a*) History.
(*b*) Economics and Political Science.
(*c*) Philosophy, Group I.
(*d*) Philosophy, Group II.
(*e*) Sanskrit *or* Persian.

45. Candidates for the B.Sc. degree shall be required to attend courses of study in the following subjects:—

I. English.

II. A second language (Kannada, Telugu, Tamil, Sanskrit, Hindustani *or* French), provided that French (*or* German) shall be studied in the third year.

III. (*a*) in the first year,

(i) Mathematics, Physics and Chemistry.

Or,

(ii) Zoology, Geology, and Botany.

(*b*) in the second and third years, two subjects, one principal and the other subsidiary, selected from the group studied in the first year.

46. DETAILS OF COURSES OF STUDY FOR THE B.A. DEGREE EXAMINATION.

I. ENGLISH.

(*a*) Text-books for detailed and non-detailed study.

(*b*) History and principles of literature with reference to prescribed books.

(*c*) Principles of style and elocution.

(*d*) Composition.

II. SECOND LANGUAGE.

(a) Kannada.

(1) *Literature*:—

Text-books from the three periods.

(2) *Language*:—

Elementary knowledge of the grammar of old Kannada, and of rhetoric and prosody; and the main outlines of the history of Kannada language and literature. No text-books will be used, but lectures will be given and an elementary hand-book covering the whole field will be prepared.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916

(3) *Composition and Translation* —

General principles of composition and style, and for translation, exercises to be chosen from good passages in English poetry and prose

(b) Telugu.

(1) Literature.
(2) Language.
(3) Composition and Translation

(c) Tamil.

(1) Literature.
(2) Language.
(3) Composition and Translation.

(d) Sanskrit.

(*a*) The detailed study of books prescribed from time to time.

(*b*) Grammar and Prosody as in Macdonell's "Sanskrit Grammar for Beginners" or Kale's "Smaller Sanskrit Grammar."

(*c*) The History of Literature as in Macdonell's "Sanskrit Literature" (Chapters X—XIV).

(*d*) Translation from English into Sanskrit and *vice versa*.

(e) Hindustani.

(1) Literature.
(2) Language.
(3) Composition and Translation.

(f) Persian.

(1) Prescribed Books and Grammar.
(2) Translation.

(g) French.

(1) Prescribed Books and Grammar.
(2) Translation.

III. OPTIONAL SUBJECTS.

A (a) Mathematics.

First Year.

(*a*) Algebra.
(*b*) Trigonometry
(*c*) Geometry, and
(*d*) Analytical Geometry.

(*a*) Algebra.

Permutations and combinations. The Binomial theorem, any index, convergence and divergence of series. Indeterminate equations of the first degree.

(*b*) Trigonometry.

Properties of triangles and of the circles connected with them. Heights and distances. Division formulæ.

(*c*) Geometry.

(i) *Theory.*

Concurrence and Collinearity. Loci. Elementary Maxima and Minima. The fundamental properties of the parabola.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

Concurrence and Collinearity.—The use of signs as applied to lines, angles and areas. If two parallel lines are cut by three or more concurrent transversals, the corresponding segments are proportional; and the converse.

If X, Y, Z, are points in the sides BC, CA, AB of a triangle ABC, such that the perpendiculars to those sides at these points are concurrent, then

$$(BX^2-XC^2)+(CY^2-YA^2)+(AZ^2-ZB^2)=0;$$

or $$BX^2+CY^2+AZ^2=CX^2+BZ^2+AY^2,$$

and the converse.

If any transversal meets the sides BC, CA, AB of a triangle in D, E, F, then

$$AF.\ BD.\ CE=AE.\ CD.\ BF;$$

and conversely, if three points D, E, F taken on the sides BC, CA, AB of a triangle, satisfy the relation AF. BD. CE = AE. CD. BF, then D, E, F are collinear.

If the lines joining any point to the vertices A, B, C of a triangle meet the opposite sides in D, E, F;

then $$AF.\ BD.\ CE=FB.\ DC.\ EA;$$

and conversely, if three points D, E, F, taken on the sides BC, CA, AB of a triangle, satisfy the relation AF. BD. CE = FB. DC. EA, then AD, BE, CF are concurrent.

If two unequal similar figures are similarly placed, the lines joining the vertices of one to the corresponding vertices of the other are concurrent.

Loci.—If from a fixed point O a variable line is drawn, and in it points P, Q are taken, so that the ratio of OP to OQ is constant, then (1) if P moves along a straight line, the locus of Q is a parallel straight line; (2) if P moves along the circumference of a circle, the locus of Q is a circle.

The locus of a point which is such that the rectangle under its distances from the equal sides of an isosceles triangle is equal to the square on its distance from the third side, is the circle which touches the equal sides at the extremities of the third side.

If A, B are fixed points, and P a variable point such that the ratio of PA to PB is one of constant inequality, then the locus of P is a circle.

Given the base and vertical angle of a triangle, find the locus of its (1) incentre, (2) orthocentre, (3) centroid, (4) excentres.

If a triangle ABC of given species has one corner A fixed, another B always on a fixed line or circle, then the locus of C will be a line or circle.

Elementary Maxima and Minima.—When two sides of a triangle are given in length, the area of the triangle is greatest when they are placed at right angles.

The maximum triangle which can be inscribed in a given segment of a circle is that formed by joining the middle point of its arc to the extremities of the chord.

If A, B are two fixed points, and XY a fixed line; then for that point P in XY at which AP, BP make equal angles with XY.

(1) AP + PB is minimum, if A, B are on the same side of XY.

(2) AP ~ BP is maximum, if A, B are on opposite sides of XY.

If A, B are fixed points and P any point in a fixed line, the angle APB will be maximum, when the circle APB touches the fixed line.

Of all triangles having the same base and equal areas, the isosceles triangle has the minimum perimeter.

The maximum of isoperimetric triangles on the same base is the one whose other two sides are equal.

Of all polygons having all sides given but one, the maximum can be inscribed in a semi-circle having the undetermined side as diameter.

Of all isoperimetric polygons of the same number of sides, the equilateral is the maximum.

If P is any point in a given straight line AB, AP, PB is maximum and AP^2+PB^2 is minimum when P is the middle point of AB; of all rectangles, of given area, the square has the minimum perimeter.

The maximum parallelogram which can be inscribed in a triangle by drawing parallels to two of its sides, is that formed by drawing the parallels from the middle point of the third side.

No. 7534-43 -Edn. 90-15-136, dated 24th June 1916.

(c) *Practical Work.*

Simple cases of Orthogonal projection.

(*d*) Analytical Geometry.

The point, the straight line and the circle.

Second and Third Years.

(*a*) Algebra,
(*b*) Trigonometry,
(*c*) Geometry,
(*d*) Infinitesimal Calculus,
(*e*) Dynamics, and
(*f*) Astronomy.

(*a*) Algebra.

Exponential and logarithmic series. Inequalities Partial fractions. Elementary methods of summation of series. Theory of equations and elementary properties of determinants. (As in C. Smith's Higher Algebra.)

(*b*) Trigonometry.

De Moivre's theorem and its simple applications.

(*c*) Pure Geometry.

Harmonic properties of the quadrilateral. Coaxal circles. Inversion. The fundamental properties of the conic sections. The geometry of the line, the plane, and the sphere.

(*d*) Analytical Geometry.

Elementary plane analytical geometry as applied to conic sections (rectangular axes). The polar equation of a conic referred to the focus as origin. The general equation of the second decree.

(*e*) Infinitesimal Calculus.

(As in A. E. H. Love's *The Elements of Differential and Integral Calculus*, Cambridge University Press.)

(*f*) Dynamics.

(As in Loney's *Statics and Dynamics* for beginners),
and in addition: Angular Momentum and Moment of Inertia in simple cases.

(*g*) Astronomy.

(As in Parker's *Elements of Astronomy.*)

(b) Physics.

First Year.

Mechanics, Hydrostatics, Heat, Sound, Light, Magnetism and Electricity. These subjects to be repeated as in the University Entrance Course with amplifications and such additions as may be possible, the treatment being more rigid and more attention being paid to the working of numerical problems than in the school course. In Electricity a certain amount of elementary electrostatics will be introduced.

Second and Third Years.

In alternate years the two following groups of subjects will be lectured on—

Properties of matter, Sound and Heat.

Light, Electricity and Magnetism.

No. 7584-43—Edn. 90-15-136, dated 24th June 1916.

Properties of matter.—Elasticity. Compressibility of gases, liquids and solids. Rigidity. Strain due to longitudinal pull. Young's Modulus. Simple twisting of shafts and wires treated experimentally. Diffusion. Osmosis. Viscosity. Simple elements of the kinetic theory.

Sound.—Simple theory of wave motion. Interference and diffraction. Measurement of wave lengths and pitch.

Heat.—Calorimetry and thermometry. Conduction, convection and radiation of heat. Simple thermodynamics.

Light.—Simple physical optics and geometrical optics.

Electricity.—Elementary electrostatics treated quantitatively. Resistance and its measurement. Electromotive force and its measurement. Electrolysis. Thermo-electricity. Electromagnetic induction. The theory and practical use of the commoner electrical aparatus.

Magnetism.—Force on magnet in a magnetic field. Measurement of field strength. Terrestrial magnetism and its measurement.

(c) Chemistry.

First Year.

The matter prescribed in the Syllabus for the University Entrance Course and in addition the following :—

The classification of the elements. Laws of chemical combination. Atomic theory, symbols and formulæ. Avogadro's hypothesis. Atomic and molecular weights. Chemical equations. Calculations.

The methods of preparation and the properties of the following elements and their principal compounds :—Hydrogen, sodium, potassium, copper, silver, magnesium, calcium, barium, zinc, mercury, boron, aluminium, carbon, silicon, tin, lead, nitrogen, phosphorus, arsenic, oxygen, sulphur, fluorine, chlorine, bromine, iodine, iron.

Second and Third Years.

The descriptive portion will include the elements and their compounds studied in detail from the standpoint of the periodic classification, omitting the rare metals and the chemistry of carbon compounds.

Theoretical and Physical Chemistry.

Methods of determining equivalent, atomic, and molecular weights ; the atomic theory ; valency ; the properties of gases ; transition from gaseous to liquid state, vapour pressure and boiling point ; solutions and solubility, osmotic pressure ; theory of electrolytic dissociation ; electrolysis ; relation of chemical energy to electrical energy and to heat ; the law of mass-action ; speed of chemical change ; catalysis ; relation of physical properties to chemical constitution.

Practical Course

Qualitative analysis of simple salts and of mixtures containing not more than two bases and two acids ; volumetric analysis ; inorganic preparations.

(d) Zoology.

First Year.

1. *Outlines of General Biology.*—The distinctive properties of living and non-living bodies ; the special characters of animals and plants, their mode of occurrence, meaning of the terms Biology, Morphology, Physiology, Palæontology ; fossils, their mode of formation and the bearing of their study on Zoology and Geology, physical and Chemical properties of Protoplasm ; structure, growth and behaviour of the cell ; formation of tissues and organs ; division of physiological labour ; elements of animal and vegetable physiology and reproduction ; segmentation of the ovum ; fertilisation

No. 7534-43—Edn. 99-15-136, dated 24th June 1916.

in animals and plants; production and dispersal of seeds and spores; the principles of classification and the origin of species.

2. *Outlines of Zoology.*—The more important distinguishing external characters of the following primary sub-divisions of the animal kingdom:—

Protozoa, Cœlenterata, Annulata, Echinodermata, Arthropoda, Mollusca. Vertebrata (with proper omissions).

Practical Work.

(*a*) A complete examination of the external characters of the following types:—Earthworm, prawn, crab, beetle, dragon-fly, spider, scorpion, centipede, star-fish, fresh water mussel, snail, dog-fish and a bony fish.

(*b*) Microscopic study of Amœba, Paramæcium, and Hydra.

(*c*) Dissection of cockroach, frog and rabbit.

Second and Third Years.

[Note.—Knowledge of groups of lower rank than orders will not be expected and particular attention will be devoted to the study of forms which have an economic importance.]

1. A study of the invertebrata as illustrated by:—

Protozoa. The leading types of the principal classes, with only a very general reference to pathogenic forms.

Porifera. The fresh water sponge and the bath sponge, with an allusion to sponge fishery.

Cœlenterata. A consideration of the outstanding examples of the principal groups including a study of the precious coral.

Annulata. Earthworm and medicinal leech.

Arthropoda. The more important types of the different classes with a special emphasis on insect study in its economic, industrial and sanitary aspects.

Echinodermata. A study of the leading examples.

Mollusca. The chief examples of the important classes including a study of the economic groups.

2. A study of the vertebrata as illustrated by:—

Pisces. Cartilaginous and bony fishes.

Amphibia. The frog and its life history.

Reptilia. A lizard, a chelonian and a snake; a reference to the chief kinds of snakes met with in Southern India, their recognition and treatment of snake bites.

Aves. The pigeon, the principal game birds of Southern India and the migratory forms.

Mammals. The rabbit; a brief study of the more important mammals found in Southern India, in such a way as to bring out the general relationship which their form may bear to their habits and mode of life.

Practical Work.

The first year college course treated more fully and in addition:—

(*a*) Dissection of earthworm, scorpion, fresh water mussel and pigeon.

(*b*) Microscopic study of vorticella, euglena and shells of foraminifera.

(*c*) Examination of transverse sections of earthworm and fresh water mussel.

(*d*) Osteology of the frog, pigeon and rabbit.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

(e) Geology.

Physiography.

The earth as a planet, its general relations to the other members of the solar system, hypotheses as to the origin of the earth; form, size and density of the earth; its movements and their effects.

The Atmosphere, its composition, height, density, pressure, temperature, moisture and movements; whether, refraction, twilight and aurora-borealis.

The Hydrosphere, its composition, extent and distribution, depth, temperature and movements.

The Lithosphere, the chief constituents of the earth's crust, the general characters and mode of occurrence of igneous and sedimentary rocks, condition of the interior of the earth.

Agents of geological change, the hypogene and epigene agents of geological change, manner and results of their action, especially as influencing earth-sculpture the destruction, construction, and gradual evolution of the crust of the earth and of its surface features.

Fossils, the main conditions favourable for their formation and preservation and their value as interpreters of the past history of the earth.

Climates, their causes and distribution; glacial epochs.

Simple facts about the geographical and geological distribution of the chief types of plant and animal life. Antiquity of man. Views as to the age of the earth's crust.

Mineralogy and Crystallography.

Symmetry; lines, planes and axes of symmetry; laws of Crystallography; the common holohedral hemihedral and hemimorphic crystal forms and combinations under each of the six crystal systems; the more important types of twins and twinning; drawing of the more important crystal forms; systems of crystal notation, use of the contact Goniometer.

The principal physical properties of minerals which aid in the recognition of the various mineral species.

Isomorphism, paramorphism, pseudomorphism and dimorphism.

The chief characteristics of all the more abundant minerals, including both those which are of geological interest and those of commercial value, their modes of occurrence and uses.

The practical determination of the chief physical and chemical properties of the commoner ores and minerals, including the use of the blowpipe.

Petrology.

The classification and distribution of rocks, and the composition, structure, texture, origin and mode of occurrence of all the more important types and their metamorphic and altered forms.

Contact and Rigional Metamorphism.

The macroscopic and microscopic examination of rocks, including the determination of the simpler optical characters of the chief rock forming minerals in parallel polarised light. Preparation of diagrams or sketches to represent features observed in rock sections under the microscope. Construction and use of a simple petrological microscope.

Structural and Field Geology.

The more important lithological and structural features of rocks, their origin or formation; structure of mineral veins. Diagrammatic sketches of the above.

No. 7531-43 - Edn. 90-15 136, dated 24th June 1916.

Construction and Interpretation of geological maps and sections. Tracing of outcrops. Simple problems in structural geology.

Stratigraphy and Palæontology.

The chief petrological and palæontological characters of the main geological divisions and their Indian representatives and the probable physical conditions under which they were formed.

Fossils, their nature and preservation. The main groups of vegetable and animal life and their distribution in time.

The characters, classification and distribution of the more important types of fossils—especially Indian, identification and sketching of fossils; causes for the imperfection of the geological record, the general succession of life as revealed thereby and the general evidence furnished in support of evolution, principles of correlation; homotaxis.

Practical Work.

Geological excursions to parts in and outside Mysore for nearly a month. Determination of rocks by their micro-characters and of minerals by the blowpipe, microscopic and other methods. Drawing of crystal forms, fossils and micro-sections, construction and interpretation of geological maps and sections. Problems in structural geology.

(f) Botany.

(Details to be prepared.)

B. (a) History.

(1) Outlines of Greek and Roman History.
(2) History of England.
(3) History of Europe (476—1878).
(4) History of India.

(b) Economics and Political Science.

(1) The British Constitution.
(2) Recent Economic History of England.
(3) Economics.
(4) Political Science.

(c) Philosophy: Group I.

(1) Logic.
(2) Psychology.
(3) Theory of Knowledge.
(4) Outlines of European Philosophy from Descartes to Hegel.
(5) Outlines of Indian Philosophy.
(6) Elements of Philosophy. (With special reference to a prescribed Philosophical Classic.)

(d) Philosophy: Group II.

(1) Psychological and Sociological Groundwork, and History, of Ethics.
(2) Theory of Ethics.
(3) History of Political Thought.
(4) Ancient Philosophy.
(5) An Ethico-Political Treatise.
(6) Political Philosophy.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

(c) Sanskrit.

(1) Detailed Study of Books—both in Prose and Verse—prescribed from time to time.

(2) History of Sanskrit Literature.

(3) Grammar and History of Sanskrit Language.

(4) Translation and Composition.

The details of the course will be as follows:—

(1) *Detailed study* of (i) Suitable selections from *Vedic* literature—

(i) Mantras and
(ii) Brahmanas.

(ii) Representative selections form *classical* literature

(i) *Kavya, Nataka, etc.*,
(ii) *Alankara* and
(iii) *Tarka.*

(2) *History of Sanskrit Literature.*—Especially in reference to works prescribed under (1).

(Macdonell's "History of Sanskrit Literature" to form the basis of study).

(3) (i) *Grammar.*—Declension and conjugation as in Monier Williams' "Sanskrit Grammar" or Kale's "Higher Sanskrit Grammar"; remaining portions as in Rajaraja Varma's "*Laghupaniniyam*" (pages 1—20, 50—67 and 53—404).

(ii) *History of Sanskrit Language.*—To be dealt with in lectures, in the third year, according to a syllabus.

(4) (i) Translation of unprepared passages from Sanskrit into English and *vice versa* (first two years).

(ii) Simple exercises in Sanskrit Composition (third year).

(c) Persian.

(1) Detailed Study of Prescribed Books.

(2) History of Persian Literature.

(3) Grammar and History of Persian Language.

(4) Translation and Composition.

A knowledge of Arabic grammar will be expected from the candidates.

47. DETAILS OF COURSES OF STUDY FOR THE B. Sc. DEGREE.

(*To be prepared.*)

EXAMINATIONS.

48. The Examinations shall be held at such time, in such places, and in such manner as may be prescribed by the Senate.

49. There shall be boards of examiners for the following subjects, or groups of subjects.

i. English and French.
ii. Kannada, Tamil and Telugu.
iii. Hindustani and Persian.
iv. Sanskrit.
v. Mathematics.
vi. Physical Science.
vii. Natural Science.
viii. Mental and Moral Science.
ix. History and Economics.
x. Teaching.

50. At least one examiner who is not on the teaching staff of the University shall be appointed by the Council for each subject or group of subjects forming part of the course of studies required for University Degrees.

51. The Council shall issue detailed instructions to examiners and determine the scale of remuneration to be paid to them.

52. Credit shall be given for regular work and progress during the years of study at the University. Candidates shall be required to submit for the inspection of Examiners their library and laboratory note-books countersigned by the Professor or Professors under whom they have worked.

53. No candidate shall be declared to have passed the Entrance examination unless he obtains not less than 40 per cent in English and 35 per cent in each of the other subject groups; provided that candidates who pass in English and obtain more than 50 per cent in all the subjects together, will be declared to have passed though they may not have obtained a minimum in one of the other groups.

54. A similar rule shall be applied in the case of those who wish to obtain qualifying certificates at the examination held at the end of the first year of the University course.

55. The B.A. examination shall be held in four divisions as follows:—

(1) English language.
(2) Second language.
(3) Optional subject, and
(4) Optional subject.

Those candidates who obtain not less than 35 per cent in each division shall be declared to have passed, provided they obtain 40 per cent of the total number of marks.

56. In the case of candidates who have failed to pass the examination, the Council shall have power to exempt them from submitting themselves to examination in divisions in which they have obtained not less than 60 per cent of marks in any examination for the B.A. degree held within two years previous to the date of application.

57. The names of successful candidates in the Entrance examination and in the first year Certificate examination shall be published in the gazette in alphabetical order.

58. In the B.A. examination, the names of those who obtain not less than 60 per cent of marks shall be arranged in order of merit, in the first division and of the rest in alphabetical order in the second division.

FEES.

64. (1) A fee of Rs. 60 a year shall be charged for the courses of study for the Bachelor's Degree and shall be paid in eight monthly instalments.

(2) The Council may modify the scale from time to time but not so as to enhance fees for students already admitted in colleges.

65. Provision shall be made for awarding free studentships to a maximum of 33 per cent of the number of the students in each class. They shall be awarded by a Committee of the Principal and the Professors of each College who shall take primarily into consideration the poverty of the applicants.

66. The scale of fees for admission to the different Examinations of the University shall be as follows:—

	Rs.
i. Entrance Examination	15
ii. B.A. or B.Sc. Degree Examination	36
iii. B. T. Degree Examination	30
iv. M.A. or M.Sc. Degree Examination	50

COLLEGIATE HIGH SCHOOLS.

78. The following High Schools are recognised as competent to present candidates for the University Entrance Examination:—

The Government High School, Bangalore	All subjects included in III of Ordinance 37.
The Maharaja's High School, Mysore	Do do
The Government High School, Shimoga	Subjects included in III (*b*) of Ordinance 37.
Do do Tumkur	Do do
Maharani's College, Mysore	Do do

No. 7534 43—Edn. 90-15-136, dated 24th June 1916.

APPENDIX.

The University Entrance Examination.

A. ENGLISH.

(*a*) *Composition*:—

The elementary principles and methods of composition with exercises—

(i) in condensing the subject matter of portions of prose or poetry; and

(ii) in writing single paragraphs, narrative, descriptive, expository, on topics suggested by the books read or subjects of common knowledge to High School students; and

(iii) in writing complete essays of several paragraphs.

(*b*) *Literature*:—

(i) Detailed Study—
Poetry: Simple narrative or lyric.
Prose: Essays or short biography.

(ii) Non-detailed Study—
Two or three books: Greek stories, fiction, popular history or science, short biography or essays.

B. SECOND LANGUAGE.

(a) Kannada.

(*a*) *Text-books in modern Kannada Poetry and Prose.*
(*b*) *Composition on general subjects.*

(b) Telugu.

(*a*) *Text-books.*
(*b*) *Composition on general subjects.*

(c) Tamil.

(*a*) *Text-books.*
(*b*) *Composition on general subjects.*

(d) Sanskrit.

(*a*) *Detailed study of simple works prescribed from year to year.*
(*b*) *Elements of Practical Grammar.*
(*c*) *Translation from Sanskrit into English and* vice versa.

(e) Hindustani.

(*a*) *Text-books.*
(*b*) *Composition on general subjects.*

(f) Persian.

(*a*) *Detailed study of simple works prescribed from year to year.*
(*b*) *Elements of Persian Grammar.*
(*c*) *Translation from Persian into English and* vice versa.

(g) French.

(*a*) *Text-books and Grammar.*

(*b*) *Translation.*

C. OPTIONAL SUBJECTS.

(a) Mathematics.

Candidates will be required to be acquainted with the use of mathematical tables.

(1) Algebra.

Algebraical laws and principles and their applications. Ratio and proportion. Theory of indices. Simple surds. Theory of Equations and expressions of the second degree. Simultaneous equations of the second degree in two unknowns. The three progressions. Interest and annuities.

(2) Plane Trigonometry.

Measurement of angles. Trigonometrical functions and their relations to one another. Simple equations. Addition and multiplication formulæ. Solution of triangles.

[*N.B.*—Only a general outline of the subject is expected.

(3) Geometry.

(i) *Theory.*

Ratio and Proportion. Similar figures. Properties of triangles and circles. Easy deductions.

Ratio and Proportion.—Definition and elementary theorems connecting the antecedents and consequents.

A given straight line can be divided internally in a given ratio at one, and only one, point; and externally at one, and only one, point.

A straight line drawn parallel to one side of a triangle cuts the other two sides, or those sides produced, proportionally; and the converse.

If the vertical angle of a triangle is bisected internally or externally, the bisector divides the base internally or externally into segments which have the same ratio as the other sides of the triangle; and the converse.

In equal circles, angles, whether at the centres or circumferences, have the same ratio as the arcs on which they stand.

Triangles and parallelograms of equal altitude are to one another as their bases.

If two triangles have one angle of the one equal to one angle of the other, their areas are proportional to the rectangles contained by the sides about the equal angles. Similarly for parallelograms having one angle of the one equal to one angle of the other.

Similar Figures.—If two triangles are equiangular their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

Two triangles are similar, if the sides of the one are respectively parallel or perpendicular to the sides of the other.

If two triangles have two sides of the one proportional to two sides of the other, and an angle in each opposite one corresponding pair of these sides equal, the angles opposite the other pair are either equal or supplementary.

If from the right angle A of a right angled triangle ABC, AD is drawn perpendicular to BC, then (1) AD is the mean proportional between BD and DC, (2)

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

BA is the mean proportional between BD and BC and (3) CA is a mean proportional between CB and CD.

If two triangles are similar, their corresponding lines (such as medians, altitudes, inradii,) are to one another in the ratio of their corresponding sides.

Similar triangles are to one another as the squares on their corresponding sides.

Two similar polygons can be divided into the same number of triangles similar to each other and similarly placed; and the converse.

The perimeters of two similar polygons are to each other as any corresponding sides.

Areas of similar polygons are proportional to the squares on corresponding sides.

Properties of Triangles.—The three medians of a triangle meet in a point, and this point is a point of trisection of each median, and also of the line joining the circumcentre to the orthocentre.

If D is a point in the side BC of a triangle ABC such that $BD = 1/n$ BC, then

$$(n-1)\,AB^2 + AC^2 = n.\,AD^2 + (1-1/n)\,BC^2.$$

The perpendiculars from the vertices of a triangle on the opposite sides meet in a point, and the distance of each vertex from the orthocentre is twice the perpendicular distance of the circumcentre from the side opposite to that vertex.

The circle through the middle points of the sides of a triangle passes also through the feet of the perpendiculars of the triangle and through the middle points of the three lines joining the orthocentre to the vertices of the triangle.

If a perpendicular drawn from the vertex to the base of a triangle is produced to meet the circumcircle, then the distance of this point of intersection from the base is equal to the distance of the orthocentre of the triangle from the base.

The feet of the perpendiculars drawn on the sides of a triangle from any point P on the circumcircle of that triangle are collinear.

If the vertical angle of a triangle is bisected by a straight line which cuts the base, the rectangle contained by the sides of the triangle is equal to the rectangle contained by the segments of the base together with the square on the straight line which bisects the angle.

If from the vertical angle of a triangle straight line is drawn perpendicular to the base, the rectangle contained by the sides of the triangle is equal to the rectangle contained by the perpendicular and the diameter of the circle described about the triangle.

Properties of Circles.—The locus of the points of intersection of tangents drawn at the extremities of chords of a circle which pass through a fixed point, is a straight line.

If the polar of A passes through B, then the polar of B passes through A.

If P and Q are any two points in the plane of a circle whose centre is O, then OP bears to OQ the same ratio as the perpendicular from P on the polar of Q bears to the perpendicular from Q on the polar of P.

The locus of points from which the tangents to two given co-planar circles are equal is a line perpendicular to the line of centres.

In two circles, if any two parallel radii are drawn (one in each circle), the straight line joining their extremities cuts the line of centres in one or other of two fixed points (called centres of similitude).

If through a centre of similitude S of two circles, a line is drawn cutting the circles, radii to a pair of corresponding points are parallel.

If through a centre of similitude of two circles, a line is drawn cutting the circles, then the rectangle under the distances of one pair of non-corresponding points from S is equal to the rectangle under the distances of the other pair of non-corresponding points from S; and each of these rectangles is constant.

In a cyclic quadrilateral the rectangle contained by the diagonals is equal to the sum of the rectangles contained by the opposite sides.

No. 7534 43—Edn 90-15 136, dated 24th June 1916.

(a) *Practical Work.*

Construction of the circumscribed inscribed and escribed circles of triangles and regular polygons. Construction of triangles and quadrilaterals from given data, and their division in any given ratio. Areas of polygons. Construction of similar figures.

(b) Physics.

Mechanics.—Units of length, mass and time. Position, change of position, rate of change of position, rate of change of speed in a straight line. Force, energy, work and power. The vector parallelogram, simple systems of parallel forces, centre of gravity. Simple machines. The simple pendulum treated experimentally, gravitational acceleration.

Hydrostatics.—Fluid pressure. Principle of Archimedes with simple applications. Determination of specific gravity. Pressure of a gas and its measurement: atmospheric pressure. Boyle's Law. Simple piston pumps.

Heat.—Distinction between quantity of heat and temperature. Measurement of temperature by liquid-in-glass thermometers. Expansion. Specific heat and its determination. Fusion, evaporation, latent heat. Vapour pressure. Conduction, convection and radiation. Heat and work. Description of the steam engine.

Sound.—Production and propagation. Velocity in air. Reflection, echoes. Loudness and pitch of musical notes.

Magnetism.—Magnets and magnet poles. Law of force. Shape of fields due to straight and bent magnets. Magnetism of Earth: the magnetic compass. Simpler magnetic properties of iron and steel.

Electricity.—Simple voltaic cell. Electric current. Chemical effects of current. Magnetic field of current. Galvanometers. Electro-magnets. Heating effect of currents. Electromotive force, resistance and its comparison by simple substitution methods. Electric telegraphs. Electric bells. Electric light. Electric direct current motors.

Light.—Laws of reflection, and refraction with very simple applications. Lenses and mirors. Telescopes and microscopes. Dispersion. Production of a spectrum.

(c) Chemistry.

Objects of study of Chemistry: to ascertain composition of materials, to investigate changes in composition, and from the foregoing to deduce general laws.

Mixtures and compounds: methods of resolving mixtures into their constituents; examples, sand and sugar by solution and filteration, salt and water by evaporation; alcohol and water by distillation, sand and sal ammoniac by sublimation; sulphur and iron magnetically, copper sulphate and water by crystallisation.

Chemical change, combination illustrated by sulphur and iron, sulphur and oxygen, candle and oxygen, quicklime and water. Decomposition illustrated by heating sugar, action of sodium on water, heating mercuric oxide, heating lead nitrate. Replacement illustrated by zinc and sulphuric acid, zinc and copper sulphate. Double decomposition illustrated by common salt and silver nitrate.

Ultimate products of decomposition, elements. Number of elements known. Examples of commonly occurring elements, oxygen, nitrogen, silver, gold, iron, sulphur, carbon.

Combination consists in union of elements with elements, elements with compounds, or compounds with compounds, a new compound being formed in every case. Burning as a special case of combination. Burning of phosphorus, of sulphur, of magnesium, and of a candle. Rusting of iron, oxidation of mercury and of copper. Products of burning or oxidation always heavier than material burnt or oxidised. Water and carbonic acid as products of combustion.

Composition of air as deduced from experiments on combustion. Reasons for regarding air as a mixture. The active and inactive constituents of air.

Oxygen: Discovery. Preparation. Properties. Comparison of combustion in oxygen and air. Character of oxygen compounds as illustrated by oxides.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

of phosphorus, sodium, and mercury. Meaning of acids and bases; their characteristic properties.

Hydrogen: Preparation from sodium and water; from water by electrical decomposition; from acids by the action of metals such as iron and zinc; from caustic alkalies by the action of aluminium or zinc. Properties Water a compound of hydrogen and oxygen.

Composition of compounds determined: (1) By analysis, (2) by synthesis, illustrated by the case of water. Methods of carrying out these processes. Composition of water by volume and by weight. Guy Lussac's Law of Volumes. Constancy of composition of water. This constancy of composition characteristic of all compounds. Law of definite proportions. Properties of water; solvent action on solids and gases, illustrated by solutions of copper sulphate, sugar, air and carbon dioxide. Nature of rain water, sea water, spring and river water. Purification of water: distillation. Crystals and crystallisation; water of crystallisation. Extraction of salt from sea water.

Nitrogen: preparation from air. Properties.

Nitric acid: preparation from nitre; properties. Formation and nature of salts. Nitrous oxide, nitric oxide, and nitrogen peroxide.

Ammonia: preparation; properties; power of neutralising acids; solubility. Ammonium chloride and ammonium nitrate and their behaviour on heating.

Carbon: Occurrence and different forms. Properties and uses. When burnt forms carbonic dioxide. This gas always formed when carbon compounds are burnt; hence wood, candles, oil, all contain carbon. Preparation and properties of carbon dioxide; action on lime water; product of respiration of animals and plants.

Sulphur: occurrence and different forms; properties; when burnt forms sulphur dioxide.

Sulphuric acid: properties and uses.

Chlorine and hydrochloric acid: preparation of hydrochloric acid from common salt; properties of the gas and of its solution in water. Chlorine from hydrochloric acid and manganese dioxide; combination of chlorine with hydrogen and with sodium to form hydrochloric acid and common salt. Bleaching action.

Phosphorus: different forms; their properties and uses.

Silicon: a constituent of sand. Occurrence of silica free and in combination.

General properties of non-metals and metals.

Sodium and potasium: occurrence and properties. Common salt, sodium carbonate and bicarbonate, caustic soda, potasium nitrate, potasium chlorate, caustic potash.

Calcium: occurrence as carbonate. Production of lime from limestone; properties of lime; mortars. Calcuim sulphate: gypsum and plaster of paris; calcium chloride; bleaching powder.

Occurrence, general method of preparation, properties and uses of zinc, iron, lead, silver, mercury, copper and aluminium. Properties of their more important compounds.

Practical Work.

The practical course will aim chiefly at developing facility in the ordinary methods of manipulation, and as regards subject matter will follow the course given in Smith's "Laboratory Outline of Elementary Chemistry," omitting the portion dealing with ionisation.

(d) Natural Science.

Elementary Botany.

[Note.—The work will be chiefly practical, if necessary, with the aid of a simple lens. There will be no detailed reference to Histology except where necessary to understand the elements of plant physiology. The candidate will be required to draw and describe parts of plants.]

1. *External Morphology.*—The root, stem, bud, and bud scales, leaf, flower, fruit and seed; their component parts, chief modifications and their functions treated practically.

No. 7534-43—Edn. 90-15-136, dated 24th June 1916.

2. *Systematic Botany.*—The general principles of classification and the characteristics of the following natural orders viewed from an elementary standpoint:—

Malvaceæ, Leguminasæ, Rubiaceæ, Compositaeæ, Apocynaceæ, Asclepiadaceæ, Labiatæ, Euphorbiaceæ, Palmeæ, Orchidaceæ, Scitamineæ and Gramineæ.

3. *Ecology.*—A brief consideration of the principal modifications of the stems of the desert and water plants and general principles of plant distribution from a geographical and ecological point of view.

4. *Physiology.*—Germination of seed, and the conditions necessary for it; functions of root, leaf, flower and pollination; simple experiments to illustrate the above.

Practical Work.

Laboratory note books of approved form for record of observations will be maintained.

Outlines of Human Physiology.

[Note.—The subject will be treated from a practical standpoint and all references to Histological details will be omitted.]

The leading facts concerning the chief tissues of the body; the human skeletion; the principal joints and the action of the muscles; the nature and function of blood; the position and arrangement of viscera in man, circulatory and respiratory organs; food, its nature, digestion and absorption; the principal glands and their functions; waste, its nature and mode of elimination; temperature of the body and its maintenance; the chief functions of the central nervous system, nerves and sensory organs.

Elements of Zoology.

A brief consideration of the external characters of the following animals:—

Earthworm, spider, scorpion, cockroach, beetle, butterfly, caterpillar, fish, frog, lizard, snake, bird, bat, cat, rabbit, cow and horse.

(These animals will be studied in such a way as to bring out the relation which their form bears to their habits and mode of life.)

Letter No 9273—391, dated 1st December 1914, from the Inspector General of Education in Mysore, proposing a revision of the pay of the Gymnastic Instructors of the different Colleges and High Schools in the State —

I have the honor to inform you that the pay of the Gymnastic Instructors of the Central College and the Maharaja's College has been fixed at Rs 20 per mensem with a personal allowance of Rs 4 rising to Rs 10 by annual increments of Rs 2 as ordered in Government Orders No. Fl. 461-2—Edn. 431-07-2, dated 27th July 1908, and No. 4863-4—Edn. 56-08-2, dated 24th November 1908. The Principal of the Maharaja's College, Mysore, recommends strongly that some increase of pay may be granted to the Gymnastic Instructor, in consideration of his long service of nine years and the efficient work done by him. The pay fixed for the Instructor in the Madras Presidency College is Rs 60 to Rs 80 and that in the Colleges at Kumbakonam, Rajamandry and the Training Colleges at Saidapet and Rajamandry and the Engineering College at Madras is Rs 20—2—40 I therefore recommend that the pay of the Instructors of the Central and Maharaja's Colleges and the Training College, Mysore, may be fixed at Rs. 20—2—40 and the Instructors of the Central and the Maharaja's Colleges who are now drawing Rs 30 may be started on Rs 32 each. Similarly the pay of the Instructors of the High Schools which is Rs. 25 in the Bangalore High School and Rs. 15 in all other High Schools may be fixed at Rs. 20- 1—25 in the Bangalore High School and at Rs 15- 1—20 each in the other High Schools

The present average cost of the pay of the 12 Gymnastic Instructors amounts to Rs. $221\frac{4}{15}$ a month and the total average cost as proposed will be Rs $266\frac{2}{3}$ a month. The excess is Rs. $45\frac{2}{3}$ *a month* or Rs $544\frac{4}{5}$ a year. The revised grades may come into effect from the beginning of the next official year.

2. Letter No. 6983—B. R. 1132, dated 22nd—24th March 1915, from the Comptroller to Government, forwarding the proposition statements relating to the above proposal duly verified

3. Correspondence ending with letter No 3080—132, dated 18th August 1915, from the Inspector-General of Education in Mysore, submitting a statement showing in respect of each of the institutions concerned, the strength and the number of classes in it.

4. Letter No. 17109—730, dated 4th March 1916, from the same officer, submitting a statement showing the names of the Instructors with their qualifications, etc

Order No. 7739-40—Edn. 12-14-256, dated 30th June 1916.

Government have carefully considered the proposal of the Inspector-General of Education and are pleased to sanction the revision of the pay of the Gymnastic Instructors in the two Arts Colleges, the Training College, and the High Schools of the State as shown in the statement appended to this order.

2. The revision will take effect from the 1st July 1916. The necessary provision for the purpose will be made in the budget for 1916-17.

No. CAMP 24-73—A. & I. 62-15-21, DATED 14TH JUNE 1916.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. Camp 24-73—A. & I. 62-15-21, dated 14th June 1916.

From the statistics of railborne trade it is observed that the exports of raw silk from Mysore exceed in value thirty lakhs of rupees annually. A large quantity of silk is also utilised locally. Thus the production of silk is one of the most important industries in the State. It is also one that offers a special scope for expansion as the climate and other conditions over a greater part of the State are eminently favourable to it.

2. On account of disease of silk worms and other causes, the industry has not been in altogether a satisfactory condition in recent years. The question of the improvement of the industry has received much attention at the hands of the Agricultural Committee and several useful measures for the development of the industry have been adopted at the instance of that body.

Government engaged in the year 1914, the services of Signor Washington Mari, an Italian Expert, to investigate the means for the improvement of the industry. On his suggestion a Central Farm was opened at Channapatna and a few experimental farms in other places. He also carried on certain experiments in cross-breeding and prepared plans for model rearing houses. But as he could not remain in India for more than a year, his work was of a preliminary character. After his departure, attention has been concentrated mainly on the supply of disease-free seed to the raiyats and demonstration of improved methods.

3. Having regard to the great possibilities of the industry and the need for thoroughly developing it, Government have decided to re-engage the services of Signor Washington Mari for a further term with the designation of Director of Sericulture in Mysore. Separate orders have issued regarding the conditions of his appointment.

4. The important items of work to which Signor Mari will pay special attention are the following:—

(1) Development of the Channapatna Central Farm and making that and other Government Farms self-supporting within two or three years and opening new farms according to requirements.

(2) Distribution on a large scale, commensurate with the local demand, of disease-free eggs in all parts of the sericultural area.

(3) Improvement of the indigenous system of rearing silk worms and of reeling.

(4) Efficient supervision of Government and aided sericultural farms and the inspection of private rearing houses and popularising improved methods of sericulture among raiyats.

(5) The training of local men unreservedly in all branches of sericultural work.

(6) Establishment of small up-to-date silk filatures in the sericultural tracts both by Government and raiyats on a commercial scale.

(7) Improving the local variety of silk worms by seed selection and growing at an elevation, etc., and testing other races with a view to develop a better race under conditions of proper control.

(8) Increasing the output of cocoons and raw silk in the State and introduction of sericulture on a commercial scale in new areas.

(9) Carrying on experiments in improved methods of cultivating mulberry in Government and aided farms.

(10) Publication of bulletins on sericulture, and statistics with the help of the Revenue Department and the Agricultural Committee.

5. As the bulk of the seed is now supplied to the raiyats by private nursaries the department should arrange to open inspection stations in large village centres for the microscopic examination of moths brought by raiyats and to ensure the supply of disease-free seed.

6. With regard to reeling, the silk now reeled within the State is of a kind for which there is great demand and in introducing improvements in reeling the essential factors to be kept in view are the requirements of the markets to be supplied. Improvements in doubling and twisting and in other processes connected with preparing the silk for the loom should also be undertaken.

7. For purposes of administrative control, the Director of Sericulture will be placed under the Secretary to Government, Departments of Education and Agriculture.

8. The control of the sericultural farms and the entire sericultural staff now working under the Agricultural Committee and of the students under training on scholarships will be transferred to the Director of Sericulture.

9. The budget allotment for sericulture under the Agricultural Committee will also be given over to the Director of Sericulture.

10. The main aim of the Director of Sericulture should be the achievement of practical results leading to the increased output of silk and raw cocoons in the State and these will depend to a great extent upon the co-operation which he is able to obtain from agencies likely to bring him into touch with the people. As the Agricultural Committee has devoted considerable attention to the development of sericulture and collected a good deal of information regarding the sericultural needs of the State, Government consider that it will be useful if the Director of Sericulture consults the Agricultural Committee freely whenever he needs their co-operation.

11. As regards industrial processes such as, reeling, doubling, etc., and the utilisation of silk waste he will consult the Director of Industries and Commerce. He will also work in collaboration with the Director of Agriculture, in the improvement of mulberry cultivation. Sericultural work in the districts will be carried on in consultation with the Deputy Commissioners.

12. The Director of Sericulture will submit to Government every month a report of the work done by him under various heads indicated above, forwarding a copy of the same simultaneously to the Agricultural Committee for information. He will also prepare a programme of work in advance for every quarter and submit it for the approval of Government.

Paragraph 5 of Government Order No 2235-7—G. M. 114-14-10, dated 2nd January 1915, calling for a detailed report on the results of the operations of the demonstration parties in weaving and a statement showing the number of looms of all kinds in existence in the places where the parties are set to work, the output of cloth under the old system and the work done under the new scheme.

2. Government Order No. 5589-91—A. & I. 55-14-7, dated 30th June 1915, according sanction provisionally to the continuance, till the end of June 1916, of the establishment connected with Weaving Demonstration Work and stating that the question will be finally decided on receipt of the report referred to above.

3. Correspondence ending with letter No. 592, dated 14th August 1915, from the Director of Industries and Commerce in Mysore, stating that the information required is contained in his annual report for the year 1914-15

4. Further correspondence ending with the Director's letter No. 4530, dated 26th April 1916, furnishing certain additional information and stating that 621 fly-shuttle looms have been installed in the villages and approximately a thousand weavers have been trained in working the fly-shuttle looms.

Order No. 7714-25—A. & I. 55-14-13, dated 30th June 1916.

From the statement submitted by the Director it is seen that the expenditure on the Factory from 1st July 1914 up to the end of March 1916, a period of one year and nine months was Rs. 72,469-13-11 and the amount realized during the same period was Rs. 41,510-6-1. The expenditure on experimental and educational work is stated to be Rs. 3,851-6-2 and that on demonstration work Rs. 15,626-14-10. After deducting the value of the stock in hand the net expenditure on the Factory was Rs. 23,331-14-2.

As a result of the operations of the department, 621 fly-shuttle looms are said to have been installed and about 1,000 weavers trained in the use of the new looms. There is obviously a large amount of work remaining to be done both in the field of demonstration and of experiment. Government are therefore pleased to sanction the continuance of the weaving department for another year from 1st July 1916. The Director is requested to forward for the information of Government a copy of the programme of work that he proposes to take up for the next year. The experimental and educational parts of the expenditure should be kept distinct and the Factory proper worked on strictly commercial lines. The accounts should also be audited once a year by an officer of the Assistant Comptroller's grade and the result reported to Government.

2. The Director is requested to pay special attention to the following lines of work during the coming year:—

(1) Weaving survey of villages into which fly-shuttle looms have been introduced with a view to ascertain to what extent the improved looms have increased production and the measures to be adopted to overcome difficulties, if any, felt by weavers in disposing of their articles.

(2) Supply of new and improved patterns to villagers and the arrangements necessary to enable the weavers to undertake the manufacture of cheap saries and other articles which are now imported to a large extent. A collection of such articles may be kept at important weaving centres.

No. 7714-25--A. & I. 55-14-13, DATED 30TH JUNE 1916.

(3) The adaptation of improved looms for weaving silk saries and other costly fabrics.

(4) Introduction of power looms as successful working concerns.

(5) Better organization of the cloth market.

3. Government have noted with interest the experiments carried on by the Director in making rugs out of local wool. Government trust that the Director will be able to complete these experiments and develop this industry during the coming year.

4. In view of the large volume of business done in *kumblis* in the State, the Director is requested to take the necessary measures for placing that industry on a satisfactory basis and for affording necessary relief to *kumbli* weavers.

It is understood that considerable difficulty is felt, at present, in spinning wool for want of proper machinery. The Director is requested to take the necessary action in consultation with the Industries and Commerce Committee for starting a suitable mill either in the Tumkur or the Chitaldrug District where there is already a large export trade in wool.

5. Government attach much importance to the Department defining the areas in which it desires to carry on the operations and maintaining, as far as practicable, reliable statistics of production of cloth and other fabrics in such areas.

6. In conclusion, Government observe that as weaving is one of the most important industries in the State, it behoves the Director of Industries and Commerce and the Industries and Commerce Committee to devote continuous attention to the study of the industry in all its aspects and help the weavers in maintaining it as a thriving industry. Arrangements should also be made to train a few educated young men in the business and to impart some rudimentary instruction in business methods to the weavers.

Revision petition No. 2 of 1916.

Petitioner.		*Counter-petitioner Respondent.*
Rangappa, son of Gopaliah.	*vs.*	Srinivasachar, son of Venkatapatiah.

Subject.

Application for a revision of Government Order No. 805—Muz. F. 306-13-6, dated 13th September 1915, rejecting the review petition of Rangappa praying that he may be declared to be the sole hereditary Archak of Sri Venkataramana Swami temple at Konakunthlu in the Chintamani Taluk.

Order

The grounds urged on behalf of the petitioner are not, in the opinion of Government, sufficient to warrant a reconsideration of the orders already passed. The circumstance that the opponent's father Venkatapatiah was allowed to join on two occasions in the presentation of petitions in which he was described as archak is a very strong point against the petitioner, the effect of which cannot be nullified by such evidence as to actual enjoyment, as the petitioner has been able to adduce. The petition is accordingly dismissed.

Copy of the above is forwarded to the Deputy Commissioner, Kolar District, returning the entire Vernacular records received with his letter No. 259, dated 24th December 1915.

Read—

Government Order No. 879-86—P. W. 4532-39, dated the 9th May 1915, according sanction to the introduction of a Time-scale of pay and promotion for Engineer officers of the Public Works Department.

2. Note by the Chief Engineer, Public Works Department, ending with No D. 120, dated the 24th March 1916, submitting a statement showing the salary proposed for each Engineer officer under the Time-scale.

Order No. 1181-87—P. W. 5775-81, dated 16th June 1916.

In paragraph 10 of the Government Order dated the 9th May 1915, read above, the Chief Engineer was requested to submit detailed proposals for fixing the initial pay of each Engineer officer under the Time-scale. To assist him in this important work, a Special Committee, consisting of the marginally noted officers, was constituted by Government. The proposals submitted by the Public Works Secretary with his note No. D. 421, dated the 29th September 1915, are mostly based on the recommendations of the above Committtee and these have been scrutinised in the Financial Department.

1. Rao Bahadur Mr. K. Krishnaiengar, B.A., L.C.E., Joint Secretary to Government, Public Works Department.
2. Mr. V. Rangaswamy Iyengar, B.C.E., Superintending Engineer.
3. Mr. M. N. Krishna Row, B.A., Deputy Comptroller.
4. Mr T. G. Lakshman Rao, L.C.E., Chairman, City Improvement Trust Board, Mysore.

2. After giving to the recommendations their full consideration, Government are pleased to sanction, with effect from 1st July 1915, the initial pay as shown in the statement attached. Orders will issue separately in the case of Messrs. B. C. Srinivasaiengar, A. Puttuswamaiya, B. Garudachar and S. Muthuswamy Iyer, with reference to paragraphs 7*b*, 7*c*, 7*d* and 10, respectively, of the Public Works Secretary's note No. D. 421, dated the 29th September 1915.

3. The undermentioned Engineer officers borne on the temporary list are confirmed as Sub-Assistant Engineers under the Time-scale to fill up existing vacancies:—

1. Mr. L. A. H. Winckler
2. Mr. R. L. Steele
3. Mr. B. R. Garudachar
4. Mr. B. Krishnaswamy Iyengar
5. Mr. S. Muthuswamy Iyer

No. 1181-87—P. W. 5775-81, DATED 16TH JUNE 1916.

APPENDIX.

Note No. D. 421, dated the 29th September 1915, by the Secretary to Government, Public Works Department.

SUBJECT.—Fixing the initial pay of the Engineer officers of the Public Works Department with reference to the Time-scale recently sanctioned by Government.

In accordance with the directions contained in paragraph 10 of Government Order No. 879-86—P. W. 4532-39, dated the 9th May 1915, sanctioning the introduction of Time-scale of pay in the Public Works Department, I submit herewith proposals for fixing the initial pay of Engineer officers as also for filling up the existing vacancies in the Sub-Assistant Engineers' class.

2. The initial pay to be given to each officer had been roughly fixed in the first instance by this office and a statement comparing the cost of the establishment under the grade and the Time-scales was submitted to Government with this office final note No. D. 152, dated the 4th April 1915, on the introduction of the Time-scale.

3. To suggest suitable proposals in each individual case on the basis of the above statement, an informal Committee presided over by Mr. V. Rangaswami Iyengar and consisting of one of each class of Engineer officers, whose prospects and emoluments are likely to be affected by the Time-scale, was formed. The members of this Committee were Mr. T. G. Lakshman Rao, Executive Engineer (now Chairman of the Mysore City Improvement Trust Board), Mr. M. G. Rangaiya, Assistant Engineer, Mr. S. H. Lakshminarasappa and Mr. B. Krishnaswami Iyengar, Sub-Assistant Engineers.

4. The report of this Committee together with the statement of initial pay proposed by them was referred to a Special Committee of senior officers consisting of the marginally noted members, constituted in accordance with your orders on this office note dated the 2nd June 1915. The report of this Special Committee, together with a statement of initial pay proposed by them, also accompanies.

Rao Bahadur Mr. K. Krishnaiengar, B.A., L.C.E., Deputy Chief Engineer.
Mr. V. Rangaswami Iyengar, B.C.E., Superintending Engineer.
Mr. M. N. Krishna Rao, B.A., Deputy Comptroller, and
Mr. T. G. Lakshman Rao, L.C.E., Chairman, Trust Board, Mysore City Improvements.

5. I have attached an abstract statement showing therein :—

(*a*) The initial pay of each officer first provisionally proposed by this office as noted in paragraph 2 above—cost Rs. 18,455,

(*b*) the pay recommended by the preliminary Committee—cost Rs. 18,805 (paragraph 3 above), and

(*c*) that fixed by the Special Committee constituted under your orders—cost Rs. 18,485 (paragraph 4).

It will be seen that the pay proposed by the preliminary Committee has, in many cases, been reduced by the Special Committee. The result will give a monthly total of Rs. 18,485 to start with, against Rs. 18,455 reported to Government in the first instance. This close coincidence is satisfactory.

6. The question of fixing the initial pay of each officer is one of difficulty and delicacy and it is not possible to lay down a uniform principle applicable to all. The principles which have been followed in this matter are briefly explained in the Special Committee's report. The case of each officer has been thoroughly examined by the Special Committee from all points of view, particularly as Mr. M. N. Krishna Rao, Deputy Comptroller, was also one of the members of the Committee and the recommendations therefore deserve to be accepted.

7. I may be permitted to make a few remarks with a view to certain modifications needed in the Special Committee's recommendations regarding some individual officers :—

(*a*) Mr. V. Aiyasawmy Iver, Executive Engineer, has submitted a memorial stating that he was superseded in the year 1907 and that his prospects have greatly suffered on this account. As the record of his services has been good, I propose to grant him an extra increment of Rs. 25. His initial pay under the Time-scale may therefore be fixed at Rs. 775 instead of Rs. 750 as recommended by the Special Committee.

(*b*) I have received a preliminary report from Mr. K. Krishnaiengar that, while in charge of the Yedatore Division, Cauvery Reservoir Works, Mr. B. C. Srinivasaiengar mismanaged some of the works. The matter is under enquiry. Pending final decision on this case, the pay proposed for Mr. B. C. Srinivasaiengar has to be considered provisional. He will continue to draw only his present salary till then.

(c) The pay proposed for Mr. A. Puttuswamaiya, whose case is now before Government, may be accepted as I have already recommended that he may be given his due promotion.

(d) Mr. B. Garudachar, Assistant Engineer, has, according to a recent Government Order, to be placed at the top of Assistant Engineers, 2nd grade. The pay attaching to this grade being Rs. 250, he will have to be ranked below Mr. N. Anandalwar in the list who will be the last officer drawing Rs. 300 in the grade scale on 1st July 1915. Mr. Garudachar's initial pay has been fixed at Rs. 250 in the Time-scale. He will draw this pay for five years as now ordered by Government or until further orders.

8. The total monthly pay of all the officers in the list with these modifications will stand at Rs. 18,440 against Rs. 18,485 as recommended by the Special Committee.

9. I may add that, in the cadre number sanctioned, I have included all officers holding substantive appointments in the Department though some of them have now been working in other Departments. As the number of such permanent officers is only 43 against the sanctioned number 54, there are eleven vacancies in the Sub-Assistant Engineers' class. To fill these vacancies eleven of the temporary Sub-Assistant Engineers are proposed to be confirmed from the temporary list.

10. The selection has been confined to the officers on the temporary list of the Public Works Department and those that were appointed for the Railway Department from this Secretariat.

Also, of the eleven officers selected, Mr. Muthuswami Iyer whose confidential report for the last two half-years is not favourable, is proposed to be started on a pay of Rs. 120 instead of Rs. 140 which would have been due to him, had his report been good.

11. Orders have been passed that the promotion of Mr. C. T. Narasimhaiengar, temporary Sub-Assistant Engineer, may be stopped for a year, and so, he has not been recommended for confirmation.

12. I have to state here that out of fifty-four officers as many as nineteen officers with a monthly salary of Rs. 5,815 as per accompanying list are now employed in the Railway and other Departments; if these officers are excluded, the net cost of the permanent establishment is reduced from Rs. 18,440 to Rs. 12,625. This shows clearly that the Department is undermanned so far as senior officers are concerned and that junior temporary men chiefly of the Sub-Assistant Engineers' class are now employed on works generally entrusted to more senior men.

In such cases, to take up the places of lent officers *sub pro tem* promotions to junior men in the list are proposed to be given similar to the practice followed in Madras as ascertained from the Chief Engineer of Madras.

13. Accordingly, in the place of the four Executive Engineers noted in the margin and seconded in the list, four Assistant Engineers who are already temporary Executive Engineers in the grade scale will now become Officiating Executive Engineers with an allowance of Rs. 100 each. The total number of Divisions at present including the temporary Divisions of the Cauvery Reservoir Circle, is 16 against the sanctioned number 14. Two more Assistant Engineers who are already holding these Executive charges will continue to do so as Officiating Executive Engineers. Also, in the place of the Executive Engineer recently appointed as Assistant to the Chief Engineer and Under-Secretary to Government, Public Works Department, one more officiating appointment is necessary. Thus, in all, seven Assistant Engineers named in the margin will, for the present, officiate as Executive Engineers with an officiating allowance of Rs. 100 each.

Mr. H. D. Rice,
Mr. K. Anantacharya,
Mr. T. G. Lakshman Rao, and
Mr. T. S. Raghavachar.

Mr. A. Puttuswamaiya.
Mr. B. Nanjundaradhya.
Mr. Y. Aswathanarayana Rao.
Mr. K. R. Seshachar.
Mr. C. Vijiarangam Naidu.
Mr. K. V. Desikacharya.
Mr. S. A. Rameswamy Iyer.

14. Similarly, following the Madras practice, in the place of such of the Assistant Engineers as are appointed to officiate as Executive Engineers or are on deputation, Sub-Assistant Engineers may be appointed to officiate as Assistant Engineers with an allowance of Rs. 50 each in addition to their pay under the Time-scale. The temporary Sub-Assistant Engineers at the bottom of the list will for the present count against the existing vacancies.

15. In point of cost, these proposals involving officiating promotions do not even approach the estimated cost of the Time-scale now to be sanctioned. It has been noted in paragraph 8 that the total of the initial pay to be sanctioned is Rs. 18,440 per month. The cost of the establishment (taking into account only the officers actually in the Department) even after the granting of the officiating promotions now proposed, will amount to only Rs. 14,905 as shown in the statement appended hereto against the existing grade pay of Rs. 14,200.

16. In conclusion, I solicit the favour of your sanction to the following:—

(*a*) To fix the initial pay of each officer as shown in column 6 in the statement.

(*b*) To confirm the eleven Sub-Assistant Engineers as per list for filling up existing vacancies.

(*c*) To grant officiating promotions to the Assistant and Sub-Assistant Engineers as shown in the statement in the place of officers seconded in the Department.

Over-recoveries of Trifling Amnouts in Rents for Inspection Lodges.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

The following letter No. 4085—G. A. II. 682, dated the 4th December 1915, from the Comptroller, Public Works Branch. —

"I have the honor to state that travellers and other temporary occupants of Inspection Lodges do not generally pay the exact amount of rent leviable as per correct calculation under the rules, but pay a few annas more or less than the actual amounts payable. Such mistakes are inevitable as precise calculation of rent in accordance with the rules cannot be expected of the average traveller or of the low-paid attender who is entrusted with the collection of rent from travellers. The result has been that the rent schedules are encumbered with long-standing items of trifling amounts recoverable and refundable. The elimination of the former items from the schedules when they are irrecoverable can be effected under para 352 of the Public Works Department Code, which empowers an Examiner to write off, without reference to higher authority, sums not exceeding ten rupees in each case, which from any cause may have become irrecoverable or in his judgment are such as should be passed though not covered by ordinary rules. As regards over-recoveries of trifling amounts, it is not possible in the majority of cases to trace the parties concerned for refunding the amounts to them, and, even in those cases where the party's whereabouts can be traced, the time and trouble involved in so doing will be out of proportion to the small amount concerned. I would therefore suggest that such over-recoveries may be allowed to be overlooked in the course of audit whenever the amount involved does not exceed a prescribed limit, say four annas. If the parties care to claim the refund of even such small amounts due to them, refunds will, of course, be made. The object of the proposal made in this letter is that all such over-recoveries need not be considered as requiring refunding and thus allowed to encumber the rent schedules in the indefinite hope of their clearance."

Order No. 1329-80—P. W. 6391-6442, dated 30th June 1916.

Under the circumstances brought to notice in the letter read above, Government approve of the proposal of the Comptroller that all over-recoveries in rents of Inspection Lodges, when the amount involved does not exceed four annas, need not be refunded, unless the parties concerned claim the refund. Such over-recoveries may be overlooked in audit.

2. Letter No. 3852, dated 31st May 1916, from the First Assistant to the Hon'ble the Resident in Mysore, to the Secretary to Government, General Department, communicating the sanction of the Government of India to the above proposal.

Order No. 3560-63—Ry. F. 68E-15-16, dated 22nd June 1916.

Government are pleased to sanction the appointment of Mr. G. Richards as Consulting Engineer, Mysore State Railways, for one year, in the first instance, with effect from the 13th March 1916, the date on which he began to do work for the Durbar.

2. His duties will mainly be—

(*a*) To go round works in operation or under construction or to inspect projected lines as may from time to time be required by the Durbar; to suggest improvements and help the Durbar generally to ensure the efficient and successful working of the lines in operation,

A berief report dealing with the more important questions may be furnished to the Durbar once in a month or two months, as the case may be, after each inspection.

(*b*) To advise the Durbar on any technical or other matters on which he may be consulted.

(*c*) To scrutinise the details of all important projects that may be referred to him.

(*d*) To spend on an average a week every month or a fortnight once every two months within the Mysore State if the above duties so require.

3. During the period of engagement, Mr. Richards will draw a remuneration of Rs. 500 per mensem as well as travelling allowances under the Civil Service Regulations for journeys performed in connection with the Durbar's Railway work.
